AFFIDAVIT ON BEHALF OF THE PETITIONER VIZ; SHREEHARI ASSOCIATES PRIVATE LIMITED TO THE LETTER DATED JUNE 26, 2023

SENT BY HON'BLE MAHARASHTRA ELECTRICITY REGULATORY COMMISSION

- I, Kapil Ramakant Hokarne, Son of Shri. Ramakant Hokarne, aged 39 years, the Authorised Signatory of Shreehari Associates Private Limited, having office at Plot No. 36, Gut No. 41, Golwadi Paithan Waluj Link Road, Aurangabad 431005, I say that the Petitioner is in receipt of the letter dated June 26, 2023 pertaining to Data Gaps ("Data Gaps Letter") sent by this Hon'ble Commission and with reference to that I state and submit as follows:
- 1. With respect to contents of paragraph No. 1 of the Data Gaps Letter, I submit that the excel model of tariff working has been annexed as 'Annexure A' to the Affidavit.
- 2. With respect to contents of paragraph No. 2 of the Data Gaps Letter, I submit that the Petitioner i.e., Shreehari Associates Private Limited ("SAPL") was eligible for subsidy under the policies issued by Government of Maharashtra ("GoM") and Government of India ("GoI"). However, no grant, subsidy or incentive from either GoM or GoI has been granted till date. The details of the policy and the government resolution has been referred below:
 - I. Policy bearing No. 14(03)2014-SHP dated July 02, 2014 issued by MNRE:
 - II. GR No. NCE-2015/C.R 49/Energy-7 dated July 20, 2015 passed by Industries, Energy and Labour Department, Government of Maharashtra.
- 3. With respect to the contents of paragraph No. 3 of the Data Gaps Letter, I state and submit that the mode of placing the order was through competitive bidding as mentioned in the policy issued by Respondent No. 2 i.e., Government of Maharashtra, Water Resource Department ("GOMWRD"). Details of each work is as follows:

- a) Electromechanical work done by Jyoti Limited having Ref No. S/JAT/300457/58/59-1 and purchase order acceptance dated October 05, 2011:
- b) Line evacuation work done by K J Electro Enterprises Ref No. SAPL/WO-024-KJEE-MUKANE/2014 work order dated May 29, 2014 and Shrinivas Electricals voucher No. 1284 dated March 16, 2015; and
- c) Electromechanical maintenance work done by Aavis infra vide Agreement dated December 05, 2016.

The copies of aforementioned documents have been annexed as 'Annexure - **B**' to the Affidavit.

- With respect to the contents of paragraph No. 4 of the Data Gaps Letter, I say 4. that SAPL made payment towards upfront premium i.e., Rs. 24,45,000/-(Rupees Twenty-Four Lakhs Forty-Five Thousand Only) for the Mukane Hydro Power Project located at Mukane Village, Taluka - Igatpuri, District - Nashik ("Mukane Project") vide cheque bearing No. 919076 dated May 9, 2011 which has been annexed as 'Annexure - D' at page No. 180 of the Petition and SAPL vide its letter dated September 30, 2011 enclosed cheques for threshold principal and interest amounts for the Mukane Project to the Executive Engineer, Nandur Madhameshwar Project Division which has been annexed as 'Annexure - C' to the Affidavit. Further, I say that SAPL made complete payment towards threshold premium for an amount of Rs. 79,83,904/- (Rupees Seventy Nine Lakhs Eighty Three Thousand Nine Hundred and Four Only) which was acknowledged by the Executive Engineer, Nandur Madhameshwar Project Division vide its letter dated October 19, 2011 which has been annexed as 'Annexure - E' at page Nos. 181 to 182 of the Petition.
- 5. With respect to the contents of paragraph No. 5 of the Data Gaps Letter, SAPL has annexed the work completion report along with the estimates of Respondent No. 1 i.e., Maharashtra State Electricity Distribution Company Limited ("MSEDCL") as 'Annexure H' at page Nos. 188 to 196 of the Petition, 'Annexure L' at page Nos. 203 to 205 of the Petition, 'Annexure X' at page Nos. 297 of the Petition. The Executive Engineer, MSEDCL, Nashik has vide its letter dated November 9, 2017 submitted a joint inspection report & W.C.R. report of SAPL, Mukane Project to the Superintending Engineer, MSEDCL, Nashik which has been annexed as 'Annexure D' to the Affidavit.
- 6. I say that, with respect to the contents of paragraph No. 6 of the Data Gaps Letter, the timeline of the events till the tests of charging units is as follows:

Date	Event
September 15,	GOMWRD vide its policy dated September 15, 2005
2005	("2005 Policy") issued various measures for promotion
	of private sector participation in establishing and
	commissioning of small hydro power projects ("SHP")
	with an installed capacity up to 25 MW in the state of
	Maharashtra and the same intended to encourage both
	captive power producers ("CPP") and independent
	power producers ("IPP") of hydro power.
January 23, 2008	The SHP sites were offered for development to CPPs and
	IPPs through a bidding process and the SHPs proposed
	for development were installed on a "Build, Operate and
	Transfer" basis ("BOT"). Accordingly, SAPL submitted
	its proposal vide its letter to GOMWRD for developing
	the said SHP site in capacity of an IPP.
October 11, 2008	SAPL submitted Techno Economic Feasibility Report
	("TEFR") to GOMWRD for seeking permission to
	develop Mukane Project under the 2005 Policy.
August 12, 2009	GOMWRD approved TEFR submitted by SAPL.
August 21, 2009	Vide letter of allotment ("LOA") issued by GOMWRD,
	it gave permission to develop Mukane Project with the
	installed capacity of 1.45 MW subject to fulfillment of
	certain terms and conditions.
October 11, 2010	Pursuant to LOA, SAPL and GOMWRD entered into a
	Hydro Power Development Agreement ("HPDA").
May 9, 2011	SAPL made payment towards upfront premium of Rs.
	24,45,000/- (Rupees Twenty Four Lakhs Forty Five
	Thousand Only) bearing cheque bearing No. 919076.
October 19, 2011	GOMWRD acknowledged receipt of threshold premium
	of Rs. 79,83,904/- (Rupees Seventy Nine Lakhs Eighty
	Three Thousand Nine Hundred and Four Only).

January 24, 2014	SAPL applied for grid connectivity permission for 33
	KV lines with MSEDCL.
February 8, 2014	SAPL conducted spinning test.
February 26,	SAPL provided a technical estimate with respect to
2014	evacuation of power from Mukane Project.
March 15, 2014	MSEDCL accepted the proposal for procurement of
	power.
May 7, 2014	MSEDCL granted administrative approval for
	evacuation of power of 1.45 MW from the Mukane
	Project.
May 22, 2014	MSEDCL issued a letter whereby the sanction of total
	estimated value of Rs. 52,64,395.84/- (Rupees Fifty Two
	Lakhs Sixty Four Thousand Three Hundred and Ninety
	Five and Eighty Four Paise Only) was granted to SAPL.
May 28, 2014	SAPL issued a letter to MSECL thereby accepting the
	terms of sanction.
March 27, 2015	GOWRD sent a letter to the Chief Engineer
	(Commercial), MSEDCL intimating that SAPL's
	Mukane Project is complete in all respect since last one
	year. The erection of E&M equipment in power house,
	erection of project, switchyard and remission in line from
	project switchyard to 33 KV substation at Padali is
	completed by SAPL in all respect. Furthermore, the letter
	requested MSEDCL to expedite the Energy Purchase
	Agreement ("EPA") execution process and to ensure
	early commissioning of the Project.
May 6, 2015	SAPL and MSEDCL entered into EPA thereby agreeing
	on various terms and conditions for selling the energy
	generated at Mukane Project to the tune of 1.45 MW.
July 15, 2015	SAPL sent a letter bearing reference number
	SAPL/Mukane/SHEP/157150 to the Chief Engineer

	Water Resources Department requesting to issue project
	completion certificate for the purpose of submission to
	Chief Engineer (Electrical) Hydro projects WRD and
	Ministry of New Renewable Resources of Energy, New
	Delhi as well as Maharashtra Energy Development
	Agency, Pune.
November 27,	SAPL sent a letter to Project Division Nashik requesting
2015	them to issue 100% completion certificate for the
	Mukane Project. Copy of the letter was sent to the Chief
	Engineer, North Maharashtra Division Nashik, Chief
	Engineer, Hydroelectric Project Mumbai and Assistant
	Engineer Grade-1, Mukane Dam Sub Division No. 2,
	Nashik.
January 5, 2016	Government of Maharashtra, Department of Water
	Resources issued a letter to the Chief Engineer Water,
	Resources Department. As per the letter, SAPL had
	submitted a proposal to the Government to extend the
	time till November 2016 to execute the Nashik Project.
January 16, 2016	SAPL received a letter from Godavari Marathwada
	Irrigation Development Corporation intimating that the
	Government has agreed to the proposal to extend the
	deadline till November 2016.
November 22,	GOWRD intimated SAPL about the deadline
2016	approaching. The officer of GOWRD has included
	commissioning of Mukane Hydro Electric Project in the
	target of KRA in 2016-2017.
November 23,	SAPL informed GOWRD that the equipment,
2016	configuration and testing has been completed. A request
	had been made to inspect the installation of electrical
	equipment and get permission to start the project. The
	load approval of SAPL and the permission of the

electricity inspector, the process of commissioning of the Mukane Hydroelectric Project is going on at their level and accordingly the Project will be commissioned by the end of December, 2016. December 19, 2016 The charging permission for allied equipment's installed at Mukane Project connected to 33/11Kv Padali Substation was accorded to SAPL herein by the Ministry of Industry, Energy and Labour, Government of Maharashtra vide its letter. December 28, 2016 SAPL conducted the mechanical spinning test as per the availability of water. January 20, 2017 The Executive Engineer, Nashik Rural Division submitted the feasibility report for the power supply at 33 KV level at Mukane Dam to the Superintending Engineer, MSEDCL January 21, 2017 GOWRD sent out a letter to SAPL inquiring about the progress of the Mukane Project. February 6, 2017 MSEDCL issued letter to S.E Testing and Quality Assurance, MSEDCL for intimating that the necessary grid connectivity permission to 33 KV Padali sub-station has been obtained from CE Commercial, MSEDCL. February 9, 2017 SAPL sent out a letter to the Superintending Engineer, Ghatghar (E&M Circle) Thane a copy of which was sent to Chief Engineer (Elect) Hydro Project, WRD, Mumbai. In the letter the monthly progress report for January 2017, and the clearance status sheet were attached. The letter also mentioned the expected date of commissioning as March 2017(subject to grid and water availability) and also highlighted the reasons for delay in commissioning which were not attributable to SAPL.

February 22,	The Superintending Engineer MSEDCL Urban Circle,
2017	Nashik communicated to SAPL that the competent
	authority had given its approval for the sanction of power
	supply subject to certain conditions. The sanctioned
	approval was for Auxiliary supply for start-up was 81
	KW connected load and 90 KVA contract demand. The
	sanction was valid for a period of six (6) months and
	SAPL will have to avail the supply within three (3)
M 1 6 2017	months.
March 6, 2017	SAPL sent out a letter to the Chief Engineer, North
	Maharashtra Division Water Resources Department,
	Nashik intimating him that the 1) Mechanical Spinning
	Test of Mukane Project has been completed on
	December 26, 2016. 2) The final synchronizing load test
	of Mukane Project will be done only after the availability
	of water from Nashik Irrigation Department. SAPL had
	also deposited the security amount of Rs. 3,14,289/-
	(Rupees Three Lakhs Two Hundred and Eighty Nine
	Only) vide a demand draft payable to State Bank of
2	Hyderabad (Aurangabad branch) for auxiliary load
	sanction 90 KVA.
April 3, 2017	The Superintending Engineer, (I/C) Nashik Urban
	Circle, MSEDCL had sent out a letter to SAPL intimating
	them about the Grid connectivity for Mukane Project.
	The map approval for the project had expired on March
	19, 2017 and also the validity for charging permission
	given by the Electrical Inspector's Office, Aurangabad
	for 33 KV line from Small Hydro Project was finished on
	November 13, 2016. Therefore, SAPL has to apply for
	the revised permission.
April 20, 2017	The provisional charging permission issued by Ministry
	of Industry, Energy and Labour Department,
	L

	Government of Maharashtra was renewed for a period of
	six (6) months by the Office of Superintending Engineer,
	Government of Maharashtra under Regulation 43 of the
	Central Electricity Authority Regulations, 2010 and
	under the authority conferred by Section 162 of the
	Electricity Act, 2003 ("EA, 2003") wherein, the
	Petitioner had to carry out all regulatory compliances
	including but not limited to obtaining consumer number,
	failing which the said provisional permission would
	lapse.
May 26, 2017	Office of Superintending Engineer, Testing Circle,
	Konkan Region, MSEDCL granted No Objection
	Certificate ("NOC") for commissioning of metering
	arrangement for release of fresh auxiliary supply load (90
	KVA) and evacuation of power from 1.45 MW Hydro
	Power Project at 33 KV voltage level and the same was
	granted subject to certain conditions.
June 13, 2017	Post facto approval of start up power was sought by the
	Superintending Engineer (Nashik Circle), MSEDCL
	from the Chief Engineer (Commercial), MSEDCL.
July 26, 2017	Superintending Engineer, Urban Circle, Nashik,
	MSEDCL gave justification to the Superintending
	Engineer (Commercial - I), MSEDCL for sanctioning of
	90 KVA start up power on 33 KV level for SHP (1.45
	MW) of the Petitioner and also requested the
	Superintending Engineer (Commercial - I), MSEDCL to
	accord post facto approval for this sanctioned estimate
	considering the urgency of work.
August 11, 2017.	Superintending Engineer, Urban Circle, Nashik,
	MSEDCL intimated the Executive Engineer, Nasik Rural
	Division, MSEDCL to submit sub-station load details
	template along with complete proposal to head office of
L	I

MSEDCL for completion of process, however the same was not submitted within a timely manner. August 18, 2017 The Office of Executive Engineer, Urban Testing Division, MSEDCL requested the Superintending Engineer, Urban Circle, Nashik, MSEDCL to retest the CT/PTs for main, check and substation end metering cubicles for SHP (1.45 MW) at Mukane village which was developed by the Petitioner as the testing of the same was done one and half year back and further, directed the Petitioner to complete the wiring of breaker and panel which was pending at the MSEDCL substation end before the charging of the line can be conducted. August 21, 2017 The Petitioner had carried out all necessary requirements as intimated by MSEDCL including but not limited to obtaining Electrical Inspector's charging permission for supply of fresh auxiliary load of 90 KVA with an intention of expediting the process of commissioning of Mukane Project and charging 33 KV lines within the stipulated time period of six (6) months from the date of issuance of provisional charging permission dated April 20, 2017. In lieu of that the Petitioner requested MSEDCL to conduct final joint inspection of Mukane Project, however, MSEDCL did not consider the request made by the Petitioner in a timely manner. October 16, 2017 The Superintending Engineer (Commercial - I) informed SAPL that the competent authority had accorded approval for sanction of load of start up power of 145 KVA contract demand & 81 KW connected load on 33 KV level subject to certain terms and conditions. The approval was valid for upto six (6) months.		
August 18, 2017 The Office of Executive Engineer, Urban Testing Division, MSEDCL requested the Superintending Engineer, Urban Circle, Nashik, MSEDCL to retest the CT/PTs for main, check and substation end metering cubicles for SHP (1.45 MW) at Mukane village which was developed by the Petitioner as the testing of the same was done one and half year back and further, directed the Petitioner to complete the wiring of breaker and panel which was pending at the MSEDCL substation end before the charging of the line can be conducted. intimated the Petitioner that certain discrepancies were	November 9,	The Superintending Engineer, MSEDCL, Nashik
	2017	intimated the Petitioner that certain discrepancies were

	observed regarding the retesting of CT/PTs for main,
	check and substation end metering cubicles for SHP
	(1.45 MW) at Mukane village as the testing of the same
	was done one and half year back and it also directed the
	Petitioner to complete the wiring of breaker and panel
	which was pending at the MSEDCL substation end
	before the charging of the line can be conducted and it
	further directed the Petitioner to observe the terms and
	conditions mentioned in the letter dated October 16, 2017
	before the proposal sent by the Petitioner for grid
	connectivity would be considered for further procedure
	after the compliance of the above factors was complied
	with by the Petitioner.
February 20,	SAPL intimated the Superintending Engineer,
2018	Aurangabad that they were unable to execute the Mukane
	Project electric set layout due to some technical reasons
	under the given period of six (6) months and therefore,
	requested the Superintending Engineer, Aurangabad to
	grant its approval for re-commissioning the Mukane
	Project electric set layout.
March 14, 2018	After testing of CT and PT installed at Mukane Project
	site, the Superintending Engineer, Nashik Urban Circle,
	MSEDCL intimated the Chief Engineer (Power
	Purchase), MSEDCL that Mukane Project is at the final
	stage of operation and requested approvals for grid
	synchronization.
March 26, 2018	SAPL requested Chief Engineer, MSEDCL to issue grid
	synchronisation permission for Mukane Project before
	March 31, 2018.
April 11, 2018	The Chief Engineer (Power Purchase), MSEDCL
	granted provisional PTC to Mukane Project and it also
	duly approved synchronisation of the new hydro turbines

	at Mukane Project site. The said commissioning approval
	was granted only for a period of thirty (30) days within
	which the Petitioner was directed to fulfill all the terms
	and conditions mentioned in the letter. Moreover, in the
	said PTC, one condition pertaining to providing visibility
	of real time generation data to State Loan Dispatch
	Centre ("SLDC") through RTU-DC and V-SAT was
	imposed for the first time since the commencement of
	Mukane Project.
April 19, 2018	PTC approved by Chief Engineer (Power Purchase),
	MSEDCL along with terms and conditions mentioned
	therein was communicated by the Superintending
	Engineer, Nashik Urban Circle, MSEDCL to the
	Petitioner.
April 22, 2018	The Petitioner started obtaining necessary approvals for
	visibility of real time generation data from SLDC
	through RTU-DC and V-SAT. However, due to the
	imposition of the condition of providing visibility of real
	time generation data through RTU-DC and V-SAT was
	imposed for the first time, the Petitioner made necessary
	attempts to obtain approvals for complying with the said
	condition, however, it could not provide real time
	generation data in a short period of thirty (30) days from
	the date of grant of PTC. Thus, the same resulted into
	lapse of PTC granted vide letter dated April 11, 2018 by
	MSEDCL.
May 3, 2018	The Petitioner addressed a letter to the Superintending
	Engineer, Nashik, MSEDCL informing them about the
	RTU-DC and V-SAT installation is in final stage of line
	charging and the Petitioner also guaranteed that the
	installation and visibility of real time generation data at
	SLDC through RTU DC and V-SAT will be activated

	1.6 1.6 1.
	before the final commissioning of the Mukane Project
	and also requested Superintending Engineer, Nashik,
	MSEDCL to charge the 33 KV line.
May 16, 2018	The Ministry of Industry, Energy and Labour,
and May 19,	Government of Maharashtra issued subsequent
2018	provisional charging permission with respect to Mukane
	Project along with ancillary equipments and provisional
	charging permission with respect to the 33 KV lines
	connected to Mukane Project and 33/11 KV sub-station.
May 28, 2018	MSEDCL granted approval to the Petitioner for charging
	33 KV lines emanating from Mukane Project up to Padali
	sub-station subject to certain terms and conditions.
June, 2018	The lines emanating from Mukane Project were charged
	in the presence of the officers of MSEDCL on June,
	2018.
April 18, 2019	As one of the conditions stipulated in the letter dated May
	28, 2018 was pertaining to providing visibility of real
	time generation data from SLDC through RTU-DC and
	V-SAT, since it was imposed for the first time upon the
	Petitioner, the final process of obtaining final charging
	permissions got delayed on account of obtaining
	necessary approvals and therefore, the final charging
	permissions could not be submitted by the Petitioner and
	the commissioning of the Mukane Project got delayed.
	So, MSEDCL sent a letter to the Petitioner for complying
	with the aforesaid condition for expediting the process of
	commissioning of the Mukane Project. It is also pertinent
	to note that the condition pertaining to visibility of real
	time generation data from SLDC through RTU-DC and
	V-SAT was subsequently waived of by MSEDCL in the
	year 2020.

0 1 1 2015	1.0 1 1 000
October 1, 2019	After charging of 33 KV lines in June, 2018, SAPL duly
	carried out all the conditions including providing
	visibility of real time generation data to SLDC through
	RTU-DC and V-SAT. After being satisfied by all due
	compliances by SAPL herein, Ministry of Industry,
	Energy and Labour, Government of Maharashtra,
	granted final charging permission with respect to
	Mukane Project with allied equipments.
October 7, 2019	At the time of issuance of the charging permission given
	vide letter dated October 01, 2019, K. J Electro
	Enterprises, Nashik was discharging its functions in
	capacity as the electrical contractor with respect to
	Mukane Project from the year 2014 till October, 2019.
	The Petitioner subsequently appointed UGL Marketing,
	Nashik - Mr. Girish Devidas Brahme as an electrical
	contractor for discharging its duties towards Mukane
	Project and the same was duly brought to the record and
	notice of MSEDCL by the Petitioner.
October 22, 2019	As the appointment of new electrical contractor viz;
	UGL Marketing, Nashik - Mr. Girish Devidas Brahme by
	the Petitioner did not satisfy the terms and conditions of
	the provisional and final charging permission given by
	the Office of the Electrical Inspector, it was directed by
	MSEDCL to the Petitioner to intimate the relevant nodal
	authorities about the change of electrical contractor and
	to obtain revised provisional / final charging permission
	for the Mukane Project and also to obtain / submit all
	statutory clearances, if any required by the WRD.
	Moreover, MSEDCL also made it mandatory for the
	Petitioner vide its earlier letters dated May 28, 2018 and
	April 18, 2019 to provide visibility of real time
	generation data to SLDC through RTU-DC and V-SAT.

77	
November 30,	The Petitioner submitted a letter stating that they are
2019	complying with all the points raised by MSEDCL vide
	its letter dated October 22, 2019 with the Petitioner's new
	electrical contractor and therefore, sought two (2) months
	time for complying with the same and further, stated that
	the 33 KV line from Padali S/S is in healthy condition
	and that the Petitioner had taken trail for supply
	continuity but since the last three (3) to four (4) months
	because of the rainy season the Petitioner could not
	charge the line and that the supply was disconnected from
	Padali S/S for safety and therefore, requested the
	Superintending Engineer, MSEDCL to allow the
	Petitioner to charge the Mukane Project 33 KV Line.
December 10,	Approval for extension was granted by MSEDCL to
2019	comply with all the discrepancies communicated vide
	their letter dated October 22, 2019.
January 24, 2020	Ministry of Industry, Energy and Labour, Government of
	Maharashtra granted a charging permission to the
	Petitioner with respect to 33 KV lines erected at Mukane
	Project and connected to 33/11 KV sub-station and the
	appointment of electrical contractor, Mr. Girish Devidas
W.	Brahme as electrical contract was mentioned.
February 12,	The Petitioner vide its letter informed the Assistant
2020	Engineer, Nashik, MSEDCL that Mukane Project is in
	the final stage of commissioning and that trial and testing
	including voltage built-up, mechanical rolling, charging
	of transformers, charging of all HT 33 KV and LT 3.3
	KV panels and synchronising of 3.3 KV generator with
	MSEDCL grid with all precautions and protections are in
	process. Therefore, the Petitioner requested MSEDCL to
	make available or restore the 33 KV supply line in the
-	event if there is any tripping from the 33 / 11 KV Padali
	1

	substation and once the commissioning, trial testing work
	is finished the Petitioner will inform MSEDCL about the
	readiness of the Mukane Project.
September 15,	As the mechanical inspection of the Mukane Project was
2021	completed in December 2016, the project was not
	operational which resulted in loss of power generation
	and the Government did not receive any revenue from the
	same therefore, the Accountant General, Mumbai
	registered an objection in this regard. Hence, the
	GOMWRD directed the Petitioner to submit the planned
	program of project implementation.
September 20,	The Petitioner cited and highlighted that the delay for
2021	implementing the Project was cause due to various
	administrative reasons along with the delayed approvals
,	granted by MSEDCL.
December 10,	GOMWRD sent a letter intimating that the water will be
2021	available in the month of December 2021 for pre-trial
	commissioning of Mukane Project and further directed
	SAPL to complete all the formalities before the said
	period of time and submit implementation report to
	GOMWRD.
December 28,	SAPL submitted the implementation report of Mukane
2021	Project before GOMWRD and it acknowledged that
	Mukane Project was at the final stage of commissioning
	and all required installations and tests have been
	successfully conducted for pre and final commissioning
	of the Mukane Project.
January 27, 2022	The Petitioner informed MSEDCL that Mukane Project
	is at the final stage of commissioning and all the required
	tests including voltage built up, charging of transformers,
	charging of all HT 33 KV & LT 3.3 KV panels and all

control panels are in process. The Petitioner also informed MSEDCL that all the testing procedures will be completed by January, 2022 and all the synchronising activities of Mukane Project will be completed in first week of February, 2022 because the first rotation of Mukane dam was scheduled during the said point of time. It is also pertinent to mention herein that the said letter was issued in compliance of Clause 6 of Schedule IV of the EPA executed between the Petitioner and MSEDCL. by virtue of which before the synchronization of the Project or before the date / start-up of turbine, the seller viz., the Petitioner was obligated to inform purchaser / MSEDCL by way of a prior notice. Thus, it was apposite to submit herein that the Petitioner had duly intimated the entire development process qua Mukane Project to MSEDCL and that the same was within the knowledge of MSEDCL. Further, as no objection or notice in response to the letter was issued to the Petitioner, the same meant deemed acceptance of the said notice by MSEDCL.

The release of water from Mukane dam was scheduled from February 03, 2022 till February 10, 2022. After all the technical aspects were confirmed, Mukane Project was connected to the grid on February 11, 2022 and the power generation was started and was injected into the grid of MSEDCL till February 16, 2022 i.e., for six (6) days on the trial basis in order to ascertain the position that Mukane Project is ready to be commissioned and also generate power for the purpose of supplying electricity to MSEDCL.

	February 25,	SAPL duly informed Executive Engineer, Nandur
	2022 and March	Madhmeshwar Project Division, GOMWRD and
	03, 2022	MSEDCL respectively that Mukane Project is fully
		operational and the same may be treated to be
		commissioned from February 11, 2022.
	March 03, 2022	GOMWRD directed SAPL to furnish a commissioning
		certificate issued by MSEDCL in order to confirm full
		operation of Mukane Project.
		GOMWRD acknowledged and treated Mukane Project
		to be commissioned in the year 2022 and reflected the
		name of Mukane Project on its official web-site under the
		category of commissioned projects.
	March 07, 2022	SAPL requested MSEDCL to issue a PTC with respect
	Water 07, 2022	to Mukane Project in order to submit the same before the
		nodal authorities of GOMWRD and for starting the
	M 1 20 2022	operation of Mukane Project.
	March 28, 2022	Instead of issuing the commissioning certificate,
		MSEDCL vide letter dated re-agitated the issue of
		appointment of new electrical contractor by SAPL which
		was issued without taking into consideration the fact that
		a revised charging permission dated January 24, 2020
		with respect to 33KV lines has already been issued to
		SAPL after considering the appointment of new electrical
		contractor i.e., Mr. Girish Devidas Brahme.
	April 26, 2022	Taking into account letter dated March 28, 2022, SAPL
		briefed MSEDCL about the change of electrical
		contractor since Mr. Girish Devidas Brahme's license
		was valid upto February 22, 2022. SAPL had informed
		about the appointment of Malhar Electrical, Nashik – Mr.
		Avinash Suresh Ugale, license of which was valid up to
1		February 15, 2024.
- 1		

1 1105 2025	L CORD CT :
April 25, 2022	MSEDCL intimated to the Petitioner that since no formal
and May 18,	permission was obtained by the Petitioner before
2022	commissioning the Mukane Project on February 11,
	2022, MSEDCL cannot treat the said project to be
	commissioned. Further, MSEDCL also stated that the
	project specific tariff of Mukane Project was to be
	determined as per the tariff regulations and the tariff
	agreed by way of the EPA dated May 06, 2015 cannot be
	considered because the Mukane Project was not
	commissioned in the year 2015. It pertinent to note that
	the said letters were issued to the Petitioner in complete
	ignorance of Clause 6 of Schedule IV of the EPA by
	virtue of which Petitioner duly informed MSEDCL
	before commissioning / start-up of the turbines.
June 06, 2022	Meanwhile GOMWRD kept on issuing letters to the
and June 29,	Petitioner for producing the commissioning certificate
2022	issued by MSEDCL. However, the Petitioner could not
	produce the same on account of objections raised by
	MSEDCL vide its letter dated May 18, 2022.
July 04, 2022	The Petitioner informed GOMWRD that MSEDCL was
	not issuing PTC to the Petitioner on account of non-
	determination of project specific tariff of Mukane Project
	and that the Petitioner shall submit the PTC and
	commissioning certificate as soon as the same was
	issued by MSEDCL.
July 23, 2022	The Petitioner issued a detailed letter to MSEDCL,
	pointing out that all the work related to pre-commission
	testing, trial synchronising and testing after
	synchronising by continuously running the hydro power
	plant for more than one hundred and three (103) hours
	and generating and supplying 1,07,940 units to MSEDCL
	from February 11, 2022 till February 16, 2022. Further,

	the Detitioner also appeared to alout all and ice CD
	the Petitioner also suggested to adopt ad hoc tariff of Rs.
	4.50/- (calculated as per average of last 10 years of
	MERC preferential tariff for SHPs) for the interregnum
	period till the tariff is determined by this Hon'ble
	Commission.
October 20, 2022	Subsequently, MSEDCL issued a letter to SAPL,
	wherein, MSEDCL agreed for issuing PTC to SAPL by
	waiving all the objections raised by MSEDCL except for
	the condition of determination of project specific tariff
	for the Mukane Project and subject to SAPL furnishing
	an undertaking of the effect that the power supplied from
	Mukane Project to MSEDCL shall be treated as lapsed
	and SAPL shall not be entitled for any claim for the said
	energy.
January 10, 2023	The Petitioner sent a letter to MSEDCL with a prayer of
	determining ad-hoc tariff until determination of project
	specific tariff by this Hon'ble Commission, in order to
	enable the Petitioner to generate power during the
	rotation of water from Mukane dam which was scheduled
	in the first week of January, 2023. However, MSEDCL
	failed and neglected to reply to the said letter thereby
	leading waste of one more opportunity for the Petitioner
	to generate power during water rotation.
March 29, 2023	Thereafter, which the present Petition was filed by SAPL
	for seeking determination of project specific tariff for
	supply of power from a SHP project namely Mukane
	Hydro Power Project and for seeking directions against
	MSEDCL for granting PTC to SAPL's Mukane Project
	on an urgent basis and during the pendency of the present
	Petition.

Further, I submit on behalf of SAPL that till the year 2015, 90% of the work related to development and commissioning of the evacuation infrastructure of Mukane Project was completed and as per the terms of HDPA, SAPL was under an obligation to start the operation of Mukane Project within a period of twenty-four (24) months from the date of issuance of letter of authorization by GOMWRD. GOMWRD vide its letter dated January 5, 2016 and letter dated January 16, 2016 granted extension towards commissioning of Mukane Project till November 2016. Copies of letters dated January 5, 2016 and January 16, 2016 have been annexed as 'Annexure - O' at page Nos. 261 to 264 of the Petition.

- 7. With respect to the contents of paragraph No. 7 of the Data Gaps Letter, I say that as per the Daily Order dated May 8, 2023, the Hon'ble Commission was pleased to permit interim arrangement of procuring power by MSEDCL at an ad-hoc tariff of Rs. 3.85 (Rupees Three and Eighty Five Paise Only) kWh per unit till final disposal of the main matter and accordingly directed MSEDCL to issue PTC. MSEDCL had issued PTC on July 4, 2023. The events that transpired after the interim Order are as follows:
 - a) SAPL sent a letter on May 10, 2023 addressed to Chief Engineer (Renewable Energy) MSEDCL, Chief Engineer (Commercial) MSEDCL and Superintending Engineer, MSEDCL requesting issue of PTC for 1.45 MW Mukane Hydro Power Project in lieu of the Interim Order passed by the Hon'ble Commission.
 - b) SAPL sent an email on May 20, 2023 and May 25, 2023 requesting MSEDCL to issue PTC as the water rotation at Mukane had already commenced on May 10, 2023.

c) MSEDCL vide its email dated May 25, 2023 directed SAPL to submit the valid Electrical Inspection charging permission mentioning the list of

- equipment and its ratings. Pursuant to which SAPL approached the Chief Electrical Inspector to certify the same.
- d) SAPL vide email dated June 5, 2023 to MSEDCL, submitted the inspection report issued by the Electrical Inspector vide its letter dated June 5, 2023 bearing reference No. EIN/TECH/2022-23/758. The inspection report has categorically stated that the inspection of SAPL's Mukane Hydro Electric Project has been done and the general condition of the Mukane Hydro Electric Project is in order as per the relevant provisions of the Central Electricity Authority (Measures relating to Safety and Electric Supply) Regulations, 2010. The relevant portion of the letter dated June 5, 2023 is reproduced below for your ready reference:

"Whereas the inspection of your electrical installation was done by the undersigned on 29.05.2023 and the general condition of the electrical apparatus are found to be in order as per the relevant provisions of the CEA (Measures relating to Safety and Electric Supply) Regulation, 2010 (as amended till date)."

- e) MSEDCL vide email dated June 7, 2023 directed SAPL to submit the Electrical Inspector's charging permission along with the list of equipment and its ratings.
- f) On June 8, 2023 SAPL held discussions with Mrs. Kavita Gharat, Chief Engineer (Renewable), and Mr. Amit Bute, Executive Engineer (Renewable) requesting MSEDCL to immediately issue PTC for their Mukane Hydro Power Project and purchase hydro power generated on the ad-hoc tariff of Rs. 3.85/- (Rupees Three and Eighty Five Paise Only) kWh per unit, as the availability of water head is reducing at the Mukane Dam.

- g) SAPL vide email dated June 9, 2023 with reference to the MSEDCL's email dated June 7, 2023 as well as to the discussions held on June 8, 2023 requested MSEDCL to grant PTC at the earliest.
- h) SAPL once again sent a reminder email dated June 14, 2023 to MSEDCL to issue PTC for the Mukane Project.
- i) SAPL vide its email dated June 17, 2023 again requested MSEDCL to issue PTC on an urgent basis as the final water rotation for the season had started for the Mukane Dam and more than twenty three (23) days had elapsed since the first water rotation was completed. Due to non-grant of PTC, SAPL suffered huge losses for which MSEDCL shall be held liable for a period from May 11, 2023 to June 2, 2023.
- j) Legal Notice dated June 20, 2023 was sent from the Advocates of SAPL, once again calling upon MSEDCL to forth with issue PTC and comply with the interim Order of the Hon'ble Commission.
- k) Office of Chief Engineer (Renewable Energy), MSEDCL vide letter dated June 23, 2023 sent to Superintending Engineer, MSEDCL accorded its approval for issuing PTC to SAPL subject to certain conditions. SAPL requested Superintending Engineer, MSEDCL vide its letter dated June 26, 2023, to depute an office representative on the project site for completing the commissioning of the Mukane project. SAPL vide its email dated June 27, 2023 again requested Superintending Engineer, MSEDCL to issue permission on urgent basis for commissioning the project before June 29, 2023 as the water rotation of the Mukane Dam would be stopped on June 29, 2023 and once again requested MSEDCL to depute its office representative on the project site.

- Legal Notice dated June 28, 2023 was once again sent from the Advocates
 of SAPL to the Superintending Engineer, MSEDCL for issuing PTC and
 to procure power at an ad-hoc rate of Rs. 3.85/- (Rupees Three and Paise
 Eighty Five Only) kWh per unit till final determination of tariff.
- m) Superintending Engineer, MSEDCL vide letter dated July 4, 2023 bearing reference No. SE/NSKC/T/Mukane/2022-23/No. 3703 stating that a joint inspection was carried out by the Superintending Engineer, Nashik circle with Executive Engineer Testing and Executive Engineer Nashik Rural Division on July 4, 2023. As per the inspection, MSEDCL requested SAPL to arrange synchronization and commissioning of Small Hydro Project (1.45 MW) for power evacuation on 33 kV Bay at Padali substation. The following was requested to be provided:
 - To observe the remaining formalities and commission and synchronize power evacuation after testing the installation by testing division and submit the MOM report immediately to MSEDCL.
 - To check existing main / check / additional check meter, all meters of Elster (A1800) make Non-DLMS protocol should be replaced within a month for further billing process.
- n) As per the Minutes of Meeting dated July 12, 2023 the Mukane Project was synchronized and commissioned successfully on July 12, 2023 at 5:30 pm. The recording of the generation panel was recorded and same was conducted before the representatives of Additional Executive Engineer, Nashik Division, Deputy Executive Engineer, Nashik Testing Division and Project Manager of SAPL.
- SAPL vide its letter dated July 13, 2023 addressed to the Superintending Engineer, MSEDCL, Nashik stating that Mukane Dam was successfully

commissioned and generated energy which was injected into 33 KV grid in the presence of MSEDCL officials from Nashik Rural Division and Nashik Testing Division. SHP was successfully commissioned on July 12, 2023 and will be in service continuously as per water availability from Nashik Irrigation Division. Moreover, SAPL also requested the Superintending Engineer, MSEDCL, Nashik to issue a "commencement certificate" on a priority basis.

The copies of letters and emails have been annexed as 'Annexure - E' to the Affidavit.

- 8. I say that, with respect to the contents of the paragraph No. 8 of the Data Gaps Letter, the basis of rate of interest considered for Interest During Construction ("IDC") is as per SBI Marginal Cost of Lending Rate ("MCLR") i.e., 9% as per Regulations 16.2 read with 31 of the Maharashtra Electricity Regulatory Commission (Terms and Condition for Determination of Renewable Energy Tariff) Regulations, 2019.
- 9. I say that, with respect to the contents of paragraph No. 9 of the Data Gaps Letter such change in substation was carried out as Padali substation was much more convenient. The distance from Mukane Hydro project to Padali substation was 2.5 Km. The Superintending Engineer, MSEDCL vide its letter dated January 3, 2014 bearing reference No. SE/NSK/R/Tech/VIII/0060 also intimated to the Chief Engineer, MSEDCL about the change in substation from Wadivarhe substation to Padali substation. A copy of the letter dated January 3, 2014 has been annexed as 'Annexure F' to the Affidavit.
- 10. With respect to paragraph No. 10 of the Data Gaps Letter, I state and submit that the detailed certified CA statement of costs incurred towards capital cost of the Mukane Project has been annexed as 'Annexure G' to the Affidavit.

Solemnly affirmed at Mumbai on this $\underline{4^{th}}$ day of $\underline{\text{September}}$, 2023 that the contents of the above affidavit are true to my knowledge, no part of it is false and nothing material has been concealed therefrom.

Sub: Purchase Order acceptances & ABG submission-Reg.

Ref: Your ref no - SAPL / Hydro / P.O / 2011-12/79 , 30.09 . (1.

Dear Sir,

With reference to above subject, please find enclosed herewith detailed P.O duly signed by us and enclosed herewith Advance Bank Guarantee for (Mukane, Waldevi & Waki MHS projects) 10% of total order Value.

We request you please release the 10% advance amount against ABG at the earliest.

Kindly do the needful for the same and acknowledge for the same.

Thanking You,

Yours faithfully,

For Jyoti Ltd.

Jasmine Tailor

Hydel Systems.

Encl: As above

Ref. No. -SAPL/HYDRO/P.O./2011-12/79 September 30th 2011

To, Jyoti Limited, Nanubhai Amin Marg, Industrial Area, P.O. Chemical industries, Vadodara-390 003.

Subject :- Purchase Order for Mukane, Waldevi & Waki Hydro Projects.

Dear Sir,

Find here enclosed here with the Purchase Order Copies for Following Hydro Projects.

- 1) Mukane:-4,10,700,00/-
- 2) Waldevi: -3,29,380,00/-
- 3) Waki :- 3,39,920,00/-

Kindly Acknowledge the Receipt of Purchase order & Send the Copy Duly accepted by you. On receipt of Your acceptance we are submitting the copy to our Bankers. The Advance Will be sanctioned by the Bank accordingly as per Project Finance agreement by bank.

Thanking you.

Regards

For Shreehari Associates Pvt Ltd,

Mr. Jagtap Sarang (G.M Admin)

PURCHASE ORDER (MUKANE HYDRO ELECTRIC PROJECT)

Purchase Order No.: SAPL/HYDRO/MUKANE/HEP/09-05/2011

Date: Sept 30th 2011

To,

Jyoti Limited

Nanubhai Amin Marg, Industrial Area,

P.O. Chemical industries,

Vadodara-390 003, India.

Phone: 0265 - 305 4444 / 4588 / 4589 Fax: 0265 - 228 1871 / 0671

SUBJECT

Purchase order for Mukane Hydro Electric Project

REFERENCE :

- 1) Your offer no. S: AKJ: 6424:2011 dated 06/05/2011
- 2) Our letter of intent No SAPL / HYDRO / LOA / 2011 2012 / 39 Dated 18/07/2011
- 3) Your commercial clarification No S/ KP / 6424 / 01 / 2011 Dated 01/07/2011
- 5) Minutes of meeting dated 29/06/2011
- 6) Minutes of meeting (E&M) dated 24/08/2011
- 7) Minutes of meeting (Civil) dated 24/08/2011
- 8) Minutes of meeting (General) dated 24/08/2011

SCOPE OF CONTRACT: In accordance with the specifications and terms & conditions of above mentioned references the scope is as under:

THE PURCHASE ORDER IS EPC BASE RESPONCIBILITY OF VENDOR INCLUDING FOLLOWING:

- 1). DESIGN, DETAIL ENGINEERING, PREPERATION OF PROJECT EXECUTION DRAWINGS OF CIVIL, HYDRO MECHANICAL, ELECTRO-MECHANICAL AND ELECTRICAL.
- 2) MANUFACTURE, TEST AT SHOP, SUPPLY AT SITE INCLUDING TRANSPORT, HANDLING, LOADING/UNLOADING, INSTALLATION, PUTTING TO OPERATION AND ERECTION, TESTING, COMMISSIONING OF TURBINE/GENERATOR SETS ALONG WITH ALL E&M EQUIPMENTS REQUIRED FOR HYDEL POWER STATION AND SWITCH YARD.
- 3) SUPERVISION OF OPERATION & MAINTENANCE FOR SIX MONTHS AFTER HANDING OVER

ANNEXURE 1: SCOPE OF SUPPLY OF ITEMS

ANNEXURE 2: GUARANTEED TECHNICAL PARTICULARS FOR TURBINE AND GENERATOR

ANNEXURE 3: LIST OF PROPOSED MAKE OF ITEMS, SUB - CONTRACTOR'S / VENDOR'S

ANNEXURE 4: LIST OF SPARES & TOOLS FOR ITEMS/EQUIPMENTS & MAINTENANCE TOOLS & TACKLES

ANNEXURE 5: TERMS AND CONDITIONS

(Mr. Jagtap Sarang - GM (Admin))

For Shreehari Associates Pvt. Ltd.

(Mr. Ganesh Kumar G....

(Hydel Systems))

Accepted For Jyoti Limited

Annexure – 1 SCOPE OF SUPPLY (1 X 1450 KW MUKANE HEP)

S. No.	Description	Qty.	Unit
1.0	TURBINE & GENERATOR PLANT		
1.1	Turbine:-Horizontal Kaplan Turbine rated out put not less than 1450 KW For 15.575 m design head with electronic governor and associated equipments complete with Turbine auxiliaries of cooling water system, drainage and dewatering system with oil and water piping, valves, strainer, bends, manhole / inspection door.	1	Set
	Mandatory Spares & Tools, Tackle etc. as per list attached.	1	Set
1.2	Main Inlet Valve:-Main Inlet Valve(Butterfly Valve of 2500 mm diameter With Single Seal, of fabricated construction) with u/s flange for connection to 2500 mm ID Penstock embedded in dam, penstock drain arrangement with valve, NRV, manhole, with extension pipe up to spiral Case, Inlet Pipe, Out let pipe, dismantling joint, servomotor, O.P.U. Control cabinet.		360
	Mandatory Spares & Tools, Tackle etc. as per list attached		
1.3	Hydro Generator :- Horizontal shaft synchronous generator 1674 KVA at 0.9 p.f ,3.3 KV , 50Hz , three phase suitable for coupling to above mentioned turbine with fully brushless excitation system with automatic voltage regulator, complete, with Generator auxiliaries , generator terminal Box phase segregated , padestal tilting pad forced oil lubricated bearing , with instrumentation.	1	Set
,	Mandatory Spares & Tools, Tackle etc. as per list attached		
1.4	Speed Increaser Gear Box. (Speed Ratio=357/750 RPM) with forced and self lubricated system with oil coolers.	1	No.
2.0	3.3 KV Switchgear comprising control & relay panels suitable for computerized control system consisting of		
	3.3 KV Circuit breaker cubicle for generator and 3.3 KV Transformer LT	2	Nos.
	3.3 KV CT having suitable current ratio with 4 core for protection & metering 1 set & 1 set of 4 core in N.G.	2	1 Sets of
	cubicle.	Sets	3 Nos.
n IN E I	Draw out Type P.T. 2 Core 3.3 KV//3,110 V//3,110 V//3 with HT fuse.	1	No.
	NGT Panel	1	No.
	LAVT Panel	1	No.
	Mandatory Spares & Tools, Tackle etc. as per list attached	1	Set

3.0	GENERATOR, TRANSFORMER & FEEDER PROTECTION AND SYNCHRONIZING PANEL (COMPRISING NUMERICAL PROTECTION RELAYS)		
	Generator Protection Panels, Comprising of Protection scheme, alarm facias, meters, relays suitable for control	1	Set
	austom wired & Tortad		
	Transformer panel comprising, Protection scheme, alarm facias, meters, relays suitable for HTLT breaker	1	Set
	Line Protection cubicles for 33 KV lines comprising protection scheme, alarm facia, meters, relays suitable for	1	Set
	breaker control complete wired & Tested. Synchronizing system comprising, protection scheme, alarm facias, meters, relays suitable for computerized	1	Set
	control system complete wired & Tested.	1	Set
	Mandatory Spares & Tools, Tackle etc. as per manufacturers list	1	Set
4.0	SCADA SYSTEM Complete in all respect including INTERFACES and other material to required for achieving total control of the Plant.		The second secon
5.0	POWER TRANSFORMER	1	No.
	Power Transformer of capacity 2.0 MVA,3 Ph., 33 KV/3.3 KV,50 Hz,ONAN Type,star neutral delta with "ON load tap changer", remote operated, suitable for Power cable connections on L.T. and HV Side with first filling of oil & accessories.		,,,,,
	Mandatory Spares & Tools, Tackle etc. as per list		
6.0	33 KV SWITCHYARD EQUIPMENTS (as per MSEDCL)Specification (Indoor Type)		Set.
	22 KV Auxiliany Transformer Panel With load break switch With Protection.	1	
	Line and Transformer metering and Protection Panel With 33 KV VCB,630 A,25 KA, 3 Ph,50 Hz.	1 1	Set.
	Bus PT Panel For Protection & metering		No.
		L.S.	L.S.
	Bus Bar material including Insulators and etc.	Adequate	Job
	Marshaling box, Junction Boxes For C.T. and P.T.		
	Mandatory Spares & Tools, Tackle etc.	1	Set
7.0	415 V A.C. SWITCHGEAR PANEL: Indoor type, 415 V A.C. Distribution board panel comprising of Two nos. of incoming A.C.B. Of suitable capacity with auto change over system, Bus bars, metering equipments and sufficient		
7.0	incoming A.C.B. Of suitable capacity with auto change over system, bus bars, metering equipments		
7.0	including manual/auto change over for U.A.T. to D.G. Set A.C.	1	1
7.0	Nos. of outgoing MCB/MCCB with ammeters, including manual/auto change over 101 U.A.T. to D.G. Set A.G.		
7.0	Nos. of outgoing MCB/MCCB with ammeters, including manual/auto change over for U.A.T. to D.G. Set A.C. Supply With ANF PANEL AND required accessories. Mandatory Spares & Tools, Tackle etc. as per suppliers list	-

	Fuel filter elements	2 Nos.
	Oil filter elements	2 Nos.
	Fan belt	2 Nos.

Maintenance Tools and Tackles

Following is a list of maintenance tools and tackles to be supplied by you.

S.No.	Description	Unit
1.	1 KV Hand operated meggar	1 No.
2.	500VHandoperatedmeggar	1 No.
3.	Analog multi meter	1 No.
4.	Digital multi meter with temperature measuring facility	1 No.
5.	Phase sequence meter.	1 No.
6.	Timer(ms)	1 No.
7.	Set of plain /flat (double ended) spanner.	1 Set.
8.	Set of ring spanner	1 Set.
9.	Set of Torque spanner	1 Set.
10.	Set of screw driver	1 Set.
11.	8" pliers.	1 Set.
12.	Hydraulic crimping tool up to 400 Sq.mm	5 Nos.
13.	Hand crimping tool upto 16Sq.mm	1 Nos.
14.	300A capacity clip ON type Ammeter	1 No.

Note: All the spares and tools shall be supplied for every project as applicable.

<u>Annexure – 5</u> <u>Terms & Conditions</u>

1) Contract Price: Rs 41070000 /(Rs Four crores ten lacks seventy thousand only)

The above price is included of supply of equipments, freight & insurance (inclusive of 12 months after commissioning), Erection & Commissioning, Supervision of O&M for six months, Excise Duty, service taxes on erection & commissioning & Sales tax & all other statutory taxes if any.

2) Scope of Supply:

- 2.1) Scope of supply will be exactly as mentioned in our Work order and your quotation. All material used shall be the best. The whole of the work shall be of the highest class, well-finished and approved design and make. The supplier shall be solely responsible for the procurement of material required for purpose.
- 2.2) All fittings or accessories which may not have been specifically mentioned in the specification but which are useful or necessary or usual for the effective working of the equipment are assumed to be include in the specification and shall be provided by you without any extra charge.

3) Delivery:

- Delivery of equipments including transport, loading & unloading shall be completed as per the schedule which will be strictly co-ordinated to provide the material in the system without hindering the projected progress of completion. The supply schedule will be prepared by you based on letter of Authorization, T/C target With Respect to agreed schedule). Jyoti shall submit drawings in Four weeks of placing the order and drawing approval by the customer shall be completed in Two Weeks time. Erection and commissioning shall be 2 -3 months after delivery of equipment.
- 3.2) No machinery and equipment shall be dispatched by you prior to inspection and approval by us / our client's inspection agency or before receipt of written dispatch instructions from us. You shall give a two week's notice period for arranging such inspection. Manufacturers test report will be submitted for approval by us /consultant as per stages of manufacturing

4) Payment Terms:

The payment shall be made in Indian rupees as per following schedule.

For Supply

- 4.1) 10% advance against B.G. from Jyoti Ltd.,
 - 4.2) 70% including taxes after supply of E & M equipment at site duly approved by us/consultant

- 4.3) 10% on erection of E & M equipment. Based on item wise installation duly approved by us/consultant.
- 4.4) 10 % on commissioning against B.G.up to warrantee period of 12 months.

Liquidated Damages:

- 4.5 In case the delivery of all the equipment and part thereof is delayed beyond four weeks from the agreed delivery period, the buyer shall have the right to deduct a penalty in the form of liquidated damages @ 0.5% per week subject to maximum 10% of the un-delivered portion of the order value. The completion date shall be considered the date of final inspection and acceptance by buyer's inspector. Once the "Maximum" is reached, the Buyer may consider termination of the Contract.
- 4.6 The deduction of the penalty shall not relieve you of any other clauses and obligations under this contract.

5 Erection and Commissioning:

- 5.1 You shall depute sufficient manpower (engineers) at site for Erection and commissioning of supplied equipments till approval by us / consultant
- 5.2 The Period for handling over of each project will be 14 months maximum from purchase order from SAPL

6 Taxes and Duties

6.1 Excise Duty:

Included in the contract price at present rate of 10.30%.

(Excise Duty will be paid by you and same will be refunded to you subject to receipt of same from related Govt authority. However coordination for refund activity to be extended by Jyoti wherever it is required. However the responsibility of getting refund lies with SAPL. The Excise amount will be paid to you by us in case Excise Duty tax refund activity gets delayed beyond 6 months of last supply invoice).

6.2 Sales Tax:

Included in the contract price at the rate of 2% against form "C". In case form is not issued by SAPL applicable full tax will be paid by us. However 2% of this amount will be deducted as considered in contract amount.

6.3 Service tax

Included in the contract price at the rate of 10.30%.

6.4 Any statutory change in tax structure will be borne by us with documentary proof. Octroi if applicable will be paid by SAPL

7 Warranty:

• Goods offered by you are warranted for their satisfactory operation for a period of 12 months from the date of commissioning. The end of 72 hours continuous run of the machines at full load shall be considered as handing over and the start of warranty period. In case full load is not available such test will be mutually discussed with our consultant for the purpose of acceptance of system.

During the warranty period you will undertake the repair of any defect due to inadequate design, defective material / workmanship, abnormal wear and tear of parts at your own cost, on receipt of such intimation from us.

- If it becomes necessary for you to replace or renew any defective portion of the equipment under the provision of this clause you shall give warrantee for the portion of the equipment so replaced or renewed until the expiration of Twelve (12) months from the date of such replacement or renewal. If any defects were not remedied within a reasonable time, buyer may proceed to do the work at your risk and costs, after notifying you, but without prejudice to any other terms of the order.
- You will furnish the repaired or new parts free of cost. If any repair is carried out on your behalf at the site, you shall bear only the actual cost of repair. Period for such repairs will be mutually finalized before taking up the repair work.
- The acceptance of the equipment by the buyer shall in no way relieve you of obligation under this clause.
- In the case of those defective parts which are not repairable at Site but essential for the commercial operation of equipment, parties shall mutually agree to the program of replacement or renewal which will minimize the interruption to the maximum extent, in the operation of the equipment.
- The provision contained in the clause will not be applicable in case of normal wear and tear. The details will be furnished by JL to us for approval as specifically mentioned in the technical specifications. In such case preventive maintenance will be implemented as per guideline from you to avoid breakdown.

8 REPLACEMENT OF DEFECTIVE PARTS AND MATERIALS

- During the progress of the works, if SAPL notices that you have supplied the equipment unsound, imperfect or inferior to the quality specified, buyer shall notify you. On receiving details of such defects and deficiencies, you shall, at their own expense, and within 15 days of receiving the notice or otherwise within such time as may be reasonably necessary for making it good, arrange to rectify such work or furnish fresh component or assembly up to the standards of specifications.
- In case you fail to do so, buyer may, on giving fifteen (15) days notice in writing off seller's intentions to do so, proceed to rectify the defects and deficiencies or replace the defective material. All such repairs and replacement shall be carried out at your risk and costs, but without any prejudice to any other terms of the order.
 - Civil work You will provide civil, hydro mechanical, electromechanical design and drawings for the project
 - GTP Turbine / Generator You will submit GTP for approval
 - GTP for key bought out items You will submit vendor GTP for approval

9 DOCUMENTATION.

- Technical Documentation
 - a) Quality Assurance Plan for our approval
 - b) Loading data for preparing civil drawings for foundations.
 - c) Electrical drawings
 - d) GA Diagrams of Power house and other equipments .
 - e) Operation and Maintenance Manuals
 - f) Test Certificates and Inspection certificates.
 - g) Other such documents which are identified during E/T/C of the system if required

Two Full sets of above documents in hard print

10 QUALITY ASSURANCE PLAN AND INSPECTION PROCEDURE

- You shall submit your QAP within 15 days from the date of the purchase order. The QAP submitted by you will be subject to further discussions and approval. Approval of QAP shall be followed by establishing customer hold points (CHP) for the QAP.
- Buyer will do inspection, their representative or any third party appointed by the buyer. The inspection will be done in accordance to the agreed QAP.

- Buyer intends to depute their inspector at your works all throughout the manufacturing period, based on periodical inspection stages mutually finalized, in order to save time for inspections. You shall give adequate advance notice to the inspector appointed by the buyer so that the inspection where CHP has been agreed is completed within agreed period. The further manufacturing can be taken up only after the CHP is cleared. In case the buyer's inspector is not available for the inspection after such notice has been given, the manufacturer will proceed with further manufacturing and submit the inspection reports to buyer for records. If the inspection reports are acceptable in accordance the agreed QAP norms, the buyer's inspector shall clear the CHP within 24 hours from the time the inspector receives the inspection reports.
- You shall give 10 days inspection call notice for final inspections. Internal inspection reports, all test certificates and necessary documents required as per approved quality plan shall be submitted at the time of inspection.
- All the documents before and after the inspection shall be issued in hard as well as soft copies. Final inspection reports after the signature shall be sent to us by e-mail to obtain necessary dispatch clearance from Buyer. No equipment can be dispatched until the required inspection procedure is completed and CHP clearance is obtained from the Buyer's inspector.
- You shall at your own expenses perform shop tests and inspection according to Test and inspection procedure as per QAP, and within five days after test and inspection, you shall submit to buyer the data reports and information according to the details agreed in the technical specifications.
- The result of such test, inspection, approval by buyer or its representative or the third party appointed for inspection and presentation of such documents as mentioned above shall not release you from your responsibilities and liabilities under this order.
- Buyer and/or Third parties duly assigned, including the representatives of any governmental agency or authority shall have the right to frequent access
 to you or your Sub-vendors workshop during manufacturing or before shipment to ensure compliance with the provision of the Specifications, or to
 witness the manufacturer's inspection and/or test. The access will not be allowed to the design department. But if required the discussion can be
 made in this related matters with design department.
- In the case that, for any reason whatsoever, the product fails to meet, in any respect the requirement mentioned in the purchase order, you shall make correction or alteration necessary for meeting the requirements and carry out any test required or check the effect of such correction or alteration at your own risk and account.
- In case buyer / third party rejects any Products as a result of inspection, examination or testing, you shall then make all possible efforts to repair in order to make the rejected parts comply with the order. If buyer / third party requires such repaired parts to be retested, the tests shall be repeated under same terms and conditions in the same location and all the costs incurred with such inspection shall be born by you.
- When the parts / equipments supplied by you have successfully met the requirements of the order documents as a result of the field test, inspection

and/or operation test of the parts / equipments that have been carried out after erection and/or installation, thereof at the site, buyer shall accept the parts / equipments.

Painting: Painting shall of best quality. Good aesthetics shall be achieved.

All fabricated items shall be shot blasted, surface preparation shall be done and painted with 2 quotes of primer and 2 quotes of epoxy paint.

12 FORCE MAJEURE

- For the purposes of this order, "Force Majeure" means an event which is beyond the reasonable control of a both Parties, and which makes a Party's performance of its obligations hereunder impossible or so impractical as reasonably to be considered impossible in the circumstances, and includes, but is not limited to, war, riots, civil disorder, earthquake, fire, explosion, storm, flood or other adverse weather conditions, strikes, lockouts or other industrial action (except where such strikes, lockouts or other industrial action are within the power of the Party invoking Force Majeure to prevent), confiscation or any other action by government agencies
- Force Majeure shall not include (i) any event which is caused by the negligence or intentional action of a Party or such Party's Sub contractors or agents or employees, nor (ii) any event which a diligent Party could reasonably have been expected to both (A) take into account at the time of the conclusion of this Contract and (B) avoid or overcome in the carrying out of its obligations hereunder;

13 No Breach of Contract

The failure of a Party to fulfill any of its obligations hereunder shall not be considered to be a breach of, or default under, this Contract insofar as such inability arises from an event of Force Majeure, provided that the Party affected by such an event has taken all reasonable precautions, due care and reasonable alternative measures, all with the objective of carrying out the terms and conditions of this Contract.

14 Measures to be taken

- Any Party affected by an event of Force Majeure shall take all reasonable measures to remove such Party's inability to fulfill its obligations hereunder with a minimum of delay.
- A Party affected by an event of Force Majeure shall notify the other Party of such event as soon as possible, and in any event not later than fourteen (14) days following the occurrence of such event, providing evidence of the nature and cause of such event, and shall similarly give notice of the restoration of normal conditions as soon as possible.
- The Parties shall take all reasonable measures to minimize the consequences of any event of Force Majeure.

15 Extension of Time

Any period within which a Party shall, pursuant to this Contract, complete any action or task, shall be extended for a period equal to the time during which such Party was unable to perform such action as a result of Force Majeure.

16 ERECTION AND SITE ACTIVITIES

- You shall depute your supervisor and technicians to project site for assembly, erection, commissioning and testing of E&M equipments and stage wise periodical supervision for CIVIL/HYDRO MECHANICAL work execution and for obtaining related necessary clearances of our project consultant. Sufficient manpower shall be deployed till all the assembly, erection, commissioning and testing activities for the hydel sets have been completed
- The number of persons and their schedule for the deployment to site shall be mutually discussed based on the site progress. However, you shall ensure that anytime adequate manpower is available and site activities are not affected due to the shortage of the manpower from you.
- During the O&M of the Plant, contractor shall depute competent technical person for supervision of Operation. First Filling of consumables will be done by your end up to commissioning of the whole system. All the consumables like oil, grease etc shall be arranged by purchaser during the period.
- Space for temporary storage of equipment to be provided to the contractor free of cost.

17 SETTLEMENT OF DISPUTES

• Amicable Settlement

The Parties shall use their best efforts to settle amicably all disputes arising out of or in connection with this Contract or the interpretation thereof.

- Dispute Settlement
 - o Any dispute between the Parties as to matters arising pursuant to this Contract which cannot be settled amicably, then the disputes shall be settled by arbitration in accordance with the following provisions
 - O Should at any time a dispute or difference of opinion arise with respect to this contract or the obligations hereunder between the Buyer and the Seller, either party shall as soon as practicable, give to the other party notice in writing of the existence of such dispute or difference of opinion specifying its nature and point at issue, and the parties hereto shall first endeavor to solve such dispute or difference of opinion in an

amicable manner.

- Arbitration proceedings shall be conducted in accordance with the rules of procedure for arbitration of the INDIAN Law in force on the date of this Contract and the official language for Arbitration purposes shall be English.
- The award of arbitration shall be final and binding on the Parties, Pending the decision on a dispute from arbitration the Seller / manufacturer shall proceed diligently with the performance of the Contract on the part of work not affected by the dispute.

18 SPARE PARTS

- The spare parts ordered shall comply with the requirements of main technical agreement / specifications.
- The quality standards and checks applicable for the main equipments shall also be applicable for the spares to be supplied.
- The details list of the spare parts listed shall be as per the attached list.
- All the spares shall be original spares and same as those used on equipment supplied. Spares shall bare certificate of supplier
- All spares shall be packed separately and clearly marked as spares with packing list inside and out side with 3 copies send to purchaser.
- Spares shall be stored separately.

19 CHANGES IN SPECIFICATIONS

Seller / manufacturer shall not make any changes in the specifications that are agreed in Technical Agreement and first liaison meeting when the concept design and basic specifications will be finalized unless a written consent is obtained from Buyer. Such change may be accepted only if seller / manufacturer is able to justify that the change/ (s) desired by them have been necessitated due to the technological developments and for the betterment of the design.

20). STATUTORY APPROVALS:

All the statutory approvals shall be obtained by purchaser. Contractor shall depute their technical personal for any discussions as and when required for obtaining the approvals. Contractor shall also submit the necessary drawings/technical documents for obtaining the approvals.

21). CONFIDENTIALITY

Definition of the Confidential Information

Confidentiality information in this contract means any and all technical, financial or commercial information stated by either party to be confidential or confidential in nature, provide, however, that the term of Confidential information shall not include any information which:

- a) Was already known to the receiving party at the time of disclosure by or on behalf of the other party.
- b) at the time of disclosure to a party is of literature or other sources or knowledge accessible to the public or which after such disclosure becomes part of literature or other sources of knowledge accessible to the public, without the culpable negligence or action of the other party, its employees or third parties it is responsible for or
- c) was available to the receiving party from a source other than the disclosing party or
- d) is developed by a party independently of any information disclosed by or on behalf of the disclosing party

22). Consignee address:

Details will be furnished at latter stage.

Our VAT TIN NO: - 27860046035 V

CST NO: - 27860046035 C

SERVICE TAX NO: - AAHCS7405BST001

23). Secrecy:

Technical information, drawings, specifications and other related documents forming part of this order are the purchaser's property and shall not be used by seller for any other purpose except for the execution of this order. Without the purchaser's consent in writing, the technical information, drawings, specifications and other documents shall not be duplicated, modified divulged and/or disclosed to third party for misused in any other form what so ever by seller except to the extent required for the executions of this order.

AGREEMENT

This agreement is made on the 05th Dec 2016 at Bangalore, Karnataka.

BETWEEN

SHREEHARI ASSOCIATES PVT LTD, Aurangabad, Maharastra (here in after called SAPL) and having it's Registered office at Plot no.36, Gut no.41, Golewadi, Paithan-Walunj link road, Aurangabad – 431 005 on one part

AND

AAVIS INFRA, having it's office at No.32, 1st Floor, Santrupthi, Motappa layout, Varanasi main road, Near Mother Teresa School, Anandpurs, Ramamurthynagar, BANGALORE-36., a Turnkey Electrical Contractor, having experience in the lurnkey HT and LT electrical WORKS (here in after called **AAVIS**) on the other part.

For the work of -

Erection, servicing, pre-commissioning, testing in all respect along with all E & M equipments of Mukane HEP 1 x 1450 KW + 10 % overload at Mukane Dam , Tal – lgatpuri, Dist – Nashik. With supervision, operation & maintenance for 12 months period.

This Agreement is governed by following Terms and conditions:

A. Price for Contract -

- The total firm price for the work under this Agreement is Rs. 24, 00,000/- (Rupees Twenty four lakhs only), exclusive of Service Tax, as applicable. Out of which Rs.17.5 lakhs has been allocated Erection, sevice activities and rs.6.5 lakhs has been allocated for O&M for 12 months.
- 2. The advance of 20% for Erection and Service has been received by us and work has been commenced at site and partially completed. The first RA bill has been submitted.

B.SCOPE of WORK.

- Cleaning, greasing, minor overhauling, operational checks etc of butterfly valve and by pass arrangement.
- 2. Dismantling, Servicing, overhauling, seal replacement, checking of lubrication etc for up-stream and down-stream shaft seals. Replacement of seals etc.
- 3. Removal of oil from the tank, cleaning of tank, refilling, servicing of oil pumping unit, filtration of oil, operational checks, wiring checks etc for Turbine OPU
- 4. Dismantling of oil header assembly, checking of alignments of oil tubes, cleaning, over hauling of header assembly, refixing etc in full.
- 5. Dismantling of runner chamber, checking of guide vane bed settings, checking/replacement of seals, greasing, alignment of vanes, inspections of runner blade gaps, alignment with respect to gear box and generators, operational checks of guide vane and runner blades, time settings etc in full.
- 6. Removal of oil from the tank, cleaning of tank, refilling, servicing of oil pumping unit, filtration of oil, operational checks, wiring checks etc for Gearbox lub oil system
- 7. Over hauling and operational checks of Cooling water system, Dewatering system, Battery and battery chargers, EOT crane etc
- 8. Supply and installation of LVDT's for runner blade and Guide vanes.
- 9. Pre commissioning check of GRMP, TACP, Syn, HT brakers, Transformers, assisting for back charging, transformer oil filtration Relay testing's, logic checks etc.,
- 10. Co-ordination for visit of Governor Engineer, programming of governor, integration with OPU and servo valves etc,.
- 11. Co-ordination for visit of Service Engineer for PLC, SCADA system and commissioning of SCADA.
- 12. Commissioning of Turbine Generators, Loading up to full load.

- 13. Contractor on priority after receipt of advance form SAPL shall start work and within 35 days' time contractor to coordinate to obtain Electrical Inspector Approval for Mukane HEP in all respect by completing all needful E & M works like switchyard Main & Aux X'mer oil filtration, oil top ups, 3.3 KV generator as well as all HT & LT panel, Both Transformer power Cable termination, all MKN Electrical equipments healthiness check (pre commissioning tests) contractor to prepare needful documents including pre commissioning report and to have technical discussion with EI or MSEDCL for obtaining approval and charging of 33 KV line etc. Contractor to coordinate MSEDCL testing team for MKN PH relay setting and coordination.
- 14. All needful documents drawings etc as per availability shall be given to contractor in soft copy as per requirement by SAPL. Within 20 days after receipt of advance from SAPL.
- 15. Any Minor fittings or accessories which may not have been supplied, erected but which is useful or necessary for effective working of equipments are assumed to be included in the scope and shall be provided by contractor without any cost /charge.
- 16. All needful supply of consumables, all kind of oil, grease , nut bolts, gaskets, o rings , all E & M equipment painting as per standard up to O & M Period
- 17. Warrantee & Commissioning, operation and Maintenance period: The end of 72 hours continuous run of the machine at full load shall be considered as handing over and start of O & M period. In case full load is not available such test will mutually discussed for the purpose of acceptance of system. The acceptance of system equipment by SAPL shall not relieve contractor under O & M feature. Contractor to take almost care that generation is not lost due to unwanted or deferrable maintenance. Contractor to take care of unduly prolonged maintenance which results in shut down more than 1/2 hrs when generation will possible.

- 18. Contractor shall depute manpower as per offer till commissioning and further O & M Period of 12 months. Operation & Maintenance, supervision charges included in offer. During O & M period preventive as well as breakdown maintenance and needful shall be implemented as per guideline to avoid break down. During Non- generation 4 persons will be available. During generation five persons including one engineer two electricians and two fitters.
- 19. During O & M period contractor to undertake the repair, maintenance of any faulty equipments, defects due to lack of improper supervision, monitoring as well as O & M job at your own without any cost. It is responsibility of contractor to maintain the plant both electrically & mechanically in good working condition till end of O & M Period of 12 months. Contractor to arrange & take care of dewatering at MKn PH after commencement of work.
- 20. During O & M period incase those equipments which is not repairable (minor Repairs) at site contractor to arrange mutually for needful and put back right for operation. Contractor to take care in all respect of MKN PH resources (like EOT crane any other equipments) during O & M while handling job for repairs & maintenance etc.
- 21. Contractor to arrange at his own any needful documents for his work. However SAPL shall furnish all available to contractor. Further contractor to prepare and support needful drawings for approval, presentation etc., (For EI, MSEDCL etc.) in 4 sets
- 22. Plant Operating philosophy, Operating instruction cum manual, as built drawings, final cable schedule to provide by Contractor in 3 sets.
- 23. Painting: Painting shall of best quality and as per standard color code. All Electrical Equipments including 33 KV HT, 3.3 KV LT Panels, GRMP, TACP And LTAC Panel, Battery Charger Panel, Tap changer Panel, Air vent pipe, Drainage & dewatering pipe lines, Generator, Gear Box with oil pipelines, BFV with accessories, Turbine &

Related parts , Cooling water system and pipe line, Main Transformer , Aux transformer, cable treys and cables EOT Crane any other parts.

- 24. Contractor to store all spares in store room with item name and tags or category wise. Also contractor to make all inventory of spares used during work. Contractor to evaluate available spares with list furnished by SAPL and inform if any short fall or non-available spares.
- 25. Contractor to depute their technical person for any discussion as when required for obtaining any kind of approval permissions etc. All kind of approvals shall be obtained by SAPL. Contractor to prepare and submit any needful document drawings (Which is not available with SAPL) for obtaining approvals and permissions.
- 26. Arrangement of supervisory services during pre-commission as well as during commissioning assistance for existing supplied items is in contractor scope. All needful to be done by contractor without any cost demand.
- 27. Contractor to train SAPL Engineers. Training to staff covers entire operation & maintenance aspects including all relay setting & coordination. Needful technical sessions to be arrange by contractor to instruct or to teach SAPL staff.

Tests on site & Commissioning:

After commissioning plant shall serve 72 hrs trial on load, to furnish proof of satisfactory working. The plant and equipment would be deemed to be satisfactory commissioned after 72 hrs on load during which period it shall have operated satisfactorily and uninterrupted (Continuously). All tests as required at site during commissioning shall be carried by contractor to satisfy the guaranteed performance of each equipment and whole installation. List of tests to be conducted at site is as below.

- 1. Pre commissioning tests of TG set, OPU, Switchyard and auxiliaries.
- 2. Mechanical Spinning of TG Set.
- Measurement of insulation of resistance of Generator and others needful tests.

- 4. BDV Dielectric test for transformer oil Short circuit test of generator, and transformers.
- 5. Measurement of stator and rotor winding resistance and shaft voltage.
- 6. Voltage built up with AVR and other functional tests.
- 7. Phase sequence test of generator and polarity and rotation test for CT/PT/and transformer.
- 8. Phase sequence, response time, synchronizing test.
- 9. Load test and temp test.
- 10. Overall setting and adjustment of AVR and excitation system.
- 11. Speed rise test and pressure rise test at 25%, 50%, 75% and 100% load throw off.
- 12. Any Other test necessary as per IEC 545.
- 13. Efficiency test.
- 14. All Relay testing, setting and overall coordination.
 Apart from above list if any test required to be perform for commissioning.
 The same shall be done by contractor without any cost implications.

Exclusions.

- 1. Any and all kind of civil works pertain to substations and power house areas.
- 2. Leveling, civil foundations for structures, trenches etc.,
- 3. Mechanical works viz installation, cranes, , Gates, hoists etc.,
- 4. Statutory fee/payments for obtaining approvals/ any incidental expenses.
- 5. Arrangement of construction power.
- 6. Only commercial or fees etc. of Approvals from statutory bodies for work execution/commissioning etc., including MSEB, Irrigation, Local body and CEIG etc.
- 7. Switch yard fencing, gates etc.

E.TIME FRAME FOR WORK COMPLETION

- The work commencement shall start 15 days from the day and date of issuance of Work order along with advance. However definite time of 3 Months to complete commissioning will start from 33 KV grid connectivity to Mukane HEP by MSEDCL. Further time extension if any shall be mutually considered as per availability of water by WRD. Contractor shall not demand any kind of charges to complete the work further or against any delay.
- Customer to ensure availability of grid and water for commissioning of the project. Incase commissioning is delayed due to non-availability of water or Grid Aavis will retain minimum staff for next three months. Further delay beyond three months it will mutually discussed.
- Customer to ensure availability of work fronts in time for smooth completion of project.
- > Storage shall be provided close to power house, watch and ward shall in the scope of customer.

D. FACILITIES REQUIRED FROM CUSTOMER:-

- 1. Free construction power supply at one point available time to time without any interruption.
- 2. Space for Temporary quarters for our men to stay at site.
- 3. Necessary work front for without any delay and excavation where ever it is required.
- 4. Respective Client's Supervisor may be available at site for stage wise clearing as and when the work demands.
- 5. Drinking water at one point.

F. COSTING SHEET:

Interim Application No. 27 of 2023

ln

Case No. 57 of 2023

Shreehari Associates Private Limited

...Petitioner

Versus

Maharashtra State Electricity Distribution Company Limited and Others ...Respondents

SHREEHARI

This is with reference to the above captioned matter. Pursuant to the hearing held on May 8, 2023 before the Hon'ble Maharashtra Electricity Regulatory Commission ("MERC" / "Commission"), we wish

to state as follows:

1. During the hearing held on May8, 2023 before the Hon'ble Commission, the Hon'ble Commission

was of the opinion that the energy generated by Shreehari Associates Private Limited

("SAPL") should not go waste as it is generated by way of a hydro project as it is a source of

renewable power in order to reduce reliability upon conventional and non-renewable sources of

electricity and that Maharashtra State Electricity Distribution Company Limited ("MSEDCL" /

"You") should acceptour proposal of ad-hoc tariff of Rs. 3.85/- (Rupees Three and Eighty Five

Paise Only) kWh.

2. The counsel appearing on your behalf Mr. Abhishek Khare after seeking instructions from your

good-self agreed and gave an undertaking before the Hon'ble Commission to issue permission to

commission ("PTC") to SAPL and also accepted the ad-hoc tariff of Rs. 3.85/- (Rupees Three and

Eighty Five Paise Only) kWh till the Petition is decided.

3. The Hon'ble Commission accepted the submission made by Mr. Abhishek Khare and directed

MSEDCL to issue PTC to us at the earliest.

4. We request You to issue PTC to SAPL for our 1.45 MW Mukane Hydro Power Project located at

Mukane village, Taluka - Igatpuri, District - Nashik on the ad-hoc tariff of Rs. 3.85/- (Rupees Three

and Eighty Five Paise Only) kWh urgently, as the water rotation at Mukane will commence from

May 10, 2023.

5. You may appreciate that non-issuance of PTC may lead to wastage of precious renewable energy.

6. We also request you to let us know formalities, if any to be complied by us.

We look forward to your kind consideration.

Thanking you,

Yours faithfully

For Shreehari Associates Private Limited

Interlocutory Application of Shreehari Associates Private Limited for seeking urgent reliefs in Case No. 57 of 2023.

Shreehari Associates Private Limited....

Petitioner

Maharashtra State Electricity Distribution Co. Ltd. (MSEDCL)

Government of Maharashtra Water Resources Department (GOMWRD)

Maharashtra Energy Development Agency

Respondents

Appearance:

For the Petitioner: : Ms. Dipali Sheth (Adv.)

For the Respondent: : Mr. Abhishek Khare (Adv)

Daily Order

- 1. Heard the Advocate of Petitioner and Respondent.
- 2. An advocate on behalf of SAPL stated that the project under consideration is an irrigation based hydro project. Now, irrigation rotation has been planned for this month i.e. May. The project is ready for commissioning. MSEDCL is not issuing Permission to Commission (PTC) and coercing SAPL to supply free electricity in lieu of issuing PTC. In the interim, till tariff is duly determined by Commission, SAPL has proposed that the power may be procured by MSEDCL at ad-hoc tariff of Rs. 3.85 per unit.
- 3. After taking instructions, Advocate appearing for MSEDCL stated that MSEDCL agrees to procure power at the rate of Rs.3.85 per unit as an interim arrangement till final disposal of the matter.

- 4. Considering submissions made, the Commission allows interim arrangement of procuring power by MSEDCL at ad-hoc tariff of Rs. 3.85 per unit till final disposal of the main matter and accordingly directs MSEDCL to issue PTC. Accordingly, the Commission disposes of IA No.27 of 2023.
- 5. Main matter i.e. Case No.57 of 2023 is filed for determination of project specific tariff, which will be decided after following up due public consultation process.

2. The counsel appearing on your behalf Mr. Abhishek Khare after seeking instructions from your good-self agreed and gave an undertaking before the Hon'ble Commission to issue permission to commission ("PTC") to SAPL and also accepted the ad-hoc tariff of Rs. 3.85/- (Rupees Three and

Eighty Five Paise Only) kWh till the Petition is decided.

3. The Hon'ble Commission accepted the submission made by Mr. Abhishek Khare and directed

MSEDCL to issue PTC to us at the earliest.

4. We request You to issue PTC to SAPL for our 1.45 MW Mukane Hydro Power Project located at Mukane village, Taluka - Igatpuri, District - Nashik on the ad-hoc tariff of Rs. 3.85/- (Rupees Three and Eighty Five Paise Only) kWh urgently, as the water rotation at Mukane will commence from

May 10, 2023.

5. You may appreciate that non-issuance of PTC may lead to wastage of precious renewable energy.

6. We also request you to let us know formalities, if any to be complied by us.

We look forward to your kind consideration.

Thanking you,

Yours faithfully

IA No. 27 of 2023 in Case No. 57 of 2023

Interlocutory Application of Shreehari Associates Private Limited for seeking urgent reliefs in Case No. 57 of 2023.

Shreehari Associates Private Limited....

Petitioner

Maharashtra State Electricity Distribution Co. Ltd. (MSEDCL)

Government of Maharashtra Water Resources Department (GOMWRD)

Maharashtra Energy Development Agency

Respondents

Appearance:

For the Petitioner: : Ms. Dipali Sheth (Adv.)

For the Respondent: : Mr. Abhishek Khare (Adv)

Daily Order

- 1. Heard the Advocate of Petitioner and Respondent.
- 2. An advocate on behalf of SAPL stated that the project under consideration is an irrigation based hydro project. Now, irrigation rotation has been planned for this month i.e. May. The project is ready for commissioning. MSEDCL is not issuing Permission to Commission (PTC) and coercing SAPL to supply free electricity in lieu of issuing PTC. In the interim, till tariff is duly determined by Commission, SAPL has proposed that the power may be procured by MSEDCL at ad-hoc tariff of Rs. 3.85 per unit.
- 3. After taking instructions, Advocate appearing for MSEDCL stated that MSEDCL agrees to procure power at the rate of Rs.3.85 per unit as an interim arrangement till final disposal of the matter.

- 4. Considering submissions made, the Commission allows interim arrangement of procuring power by MSEDCL at ad-hoc tariff of Rs. 3.85 per unit till final disposal of the main matter and accordingly directs MSEDCL to issue PTC. Accordingly, the Commission disposes of IA No.27 of 2023.
- 5. Main matter i.e. Case No.57 of 2023 is filed for determination of project specific tariff, which will be decided after following up due public consultation process.

ln

Case No. 57 of 2023

Shreehari Associates Private Limited

...Petitioner

Versus

Maharashtra State Electricity Distribution Company Limited and Others ...Respondents

SHREEHARI

This is with reference to the above captioned matter. Pursuant to the hearing held on May 8, 2023 before the Hon'ble Maharashtra Electricity Regulatory Commission ("MERC" / "Commission"), we wish

to state as follows:

1. During the hearing held on May8, 2023 before the Hon'ble Commission, the Hon'ble Commission

was of the opinion that the energy generated by Shreehari Associates Private Limited

("SAPL") should not go waste as it is generated by way of a hydro project as it is a source of

renewable power in order to reduce reliability upon conventional and non-renewable sources of

electricity and that Maharashtra State Electricity Distribution Company Limited ("MSEDCL" /

"You") should acceptour proposal of ad-hoc tariff of Rs. 3.85/- (Rupees Three and Eighty Five

Paise Only) kWh.

2. The counsel appearing on your behalf Mr. Abhishek Khare after seeking instructions from your

good-self agreed and gave an undertaking before the Hon'ble Commission to issue permission to

commission ("PTC") to SAPL and also accepted the ad-hoc tariff of Rs. 3.85/- (Rupees Three and

Eighty Five Paise Only) kWh till the Petition is decided.

3. The Hon'ble Commission accepted the submission made by Mr. Abhishek Khare and directed

MSEDCL to issue PTC to us at the earliest.

4. We request You to issue PTC to SAPL for our 1.45 MW Mukane Hydro Power Project located at

Mukane village, Taluka - Igatpuri, District - Nashik on the ad-hoc tariff of Rs. 3.85/- (Rupees Three

and Eighty Five Paise Only) kWh urgently, as the water rotation at Mukane will commence from

May 10, 2023.

We are concerned for our Client viz.; Shreehari Associates Private Limited ("SAPL"), a private company registered the Companies Act, 1956 bearing Corporate Identity U17100MH2001PTC200611 and having their registered address at Saisharan, Gut No. 41, Paithan Road, Golwadi, Aurangabad - 431005, Maharashtra, India and also having office address at Plot No. 36, Gut No. 41, Golwadi, Paithan - Waluj Link Road, Aurangabad - 431005, Maharashtra, India. Under the instructions of our Client, we wish to state as follows:

Pursuant to the hearing held on May 8, 2023 before the Hon'ble Maharashtra Electricity Regulatory 1. Commission ("MERC"), the Counsel appearing on behalf of Maharashtra State Electricity Distribution Company Limited ("MSEDCL") submitted that MSEDCL agrees to procure power at the rate of Rs. 3.85/- (Rupees Three and Eighty Five Paise Only) kWh per unit as an interim arrangement till the final disposal of the matter. Consequently, Hon'ble MERC vide daily order dated May 8, 2023 recorded the interim arrangement for procuring power by MSEDCL at an ad-hoc tariff of Rs. 3.85/-(Rupees Three and Eighty Five Paise Only) kWh per unit till the final disposal of the main matter and directed MSEDCL to issue permission to commission ("PTC") to SAPL. The relevant portion of the Daily Order dated May 8, 2023 passed by the Hon'ble State Commission in Case No. 57 of 2023 is reproduced below for your ready reference:

- "3. After taking instructions, Advocate appearing for MSEDCL stated that MSEDCL agrees to procure power at the rate of Rs.3.85 per unit as an interim arrangement till final disposal of the matter.
- 4. Considering submissions made, the Commission allows interim arrangement of procuring power by MSEDCL at ad-hoc tariff of Rs. 3.85 per unit till final disposal of the main matter and accordingly directs MSEDCL to issue PTC. Accordingly, the Commission disposes of IA No. 27 of 2023."
- 2. Client Our vide its letter dated May 10, 2023 bearing reference No. SAPL/BOT/HYDRO/MUKANE/2023-5-01 requested MSEDCL to issue PTC to SAPL for their 1.45 MW Mukane Hydro Power Project located at Mukane village, Taluka - Igatpuri, District - Nashik ("Mukane Hydro Power Project") on the ad-hoc tariff of Rs. 3.85/- (Rupees Three and Eighty Five Paise Only) kWh per unit urgently, as the water rotation at Mukane was to commence from May 10, 2023.
- 3. Our Client vide its various emails dated May 20, 2023 and May 25, 2023 requested you to issue PTC to SAPL as the water rotation at Mukane had already commenced on May 10, 2023 and that due to the non-issuance of PTC precious renewable energy was being wasted which could have been generated by way of the hydro project as it is a source of renewable power in order to reduce reliability upon conventional and non-renewable sources of electricity.
- 4. MSEDCL vide its email dated May 25, 2023 requested SAPL to submit the valid Electrical Inspection charging permission mentioning the list of equipment and its ratings. Therefore, our Client immediately approached Chief Electrical Inspector to certify the same.
- 5. Our Client vide its email dated June 5, 2023 to MSEDCL submitted the inspection report issued by the Electrical Inspector vide its letter dated June 5, 2023 bearing reference No. EIN/TECH/2022-23/758. The inspection report has categorically stated that the inspection of SAPL's Mukane Hydro Electric Project has been done and the general condition of the Mukane Hydro Electric Project is in order as per the relevant provisions of the Central Electricity Authority (Measures relating to Safety

and Electric Supply) Regulations, 2010. The relevant portion of the letter dated June 5, 2023 is reproduced below for your ready reference:

"Whereas the inspection of your electrical installation was done by the undersigned on 29.05.2023 and the general condition of the electrical apparatus are found to be in order as per the relevant provisions of the CEA (Measures relating to Safety and Electric Supply) Regulation, 2010 (as amended till date)."

- However, to our Client's utter shock MSEDCL vide its email dated June 7, 2023 again requested our Client to submit the Electrical Inspector's charging permission along with the list of equipment and its ratings.
- 7. Our Client vide its email dated June 9, 2023 with reference to the MSEDCL's email dated June 7, 2023 as well as to the discussions held in the meeting dated June 8, 2023 at Prakashgad, Mumbai in the presence of Mrs. Kavita Gharat, Chief Engineer (Renewable), and Mr. Amit Bute, Executive Engineer (Renewable) once again requested MSEDCL to immediately issue PTC for their Mukane Hydro Power Project and purchase hydro power generated on the ad-hoc tariff of Rs. 3.85/- (Rupees Three and Eighty Five Paise Only) kWh per unit, as day by day the availability of water head is reducing at the Mukane Dam. We regretfully wish to state that despite unambiguous direction and the Hon'ble MERC's Order our Client is unable to generate any revenue from the Mukane Hydro Power Project. It may also be appreciated that our Client has invested huge funds for developing the Mukane Hydro Power Project and in absence of PTC our Client is unable to generate green energy which is loss of natural resource.
- 8. Our Client vide its email dated June 14, 2023 again sent a remainder to you and called upon MSEDCL to issue PTC for their Mukane Hydro Power Project.
- 9. Our Client vide its email dated June 17, 2023 again requested you to issue PTC on an urgent basis as the final water rotation for the season has started for the Mukane Dam and more than twenty three (23) days have elapsed since the first water rotation was completed. Due to non-grant of PTC, our Client has suffered a loss for which MSEDCL shall be liable for a period from May 11, 2023 to June 2, 2023.

- 10. Despite complying with the requisition and unambiguous order of Hon'ble MERC dated May 8, 2023, MSEDCL has till date failed to issue PTC to SAPL. Such non-compliance is a breach of the undertaking given before the Hon'ble MERC and such non-issuance of PTC is contempt of the aforesaid Order.
- 11. In the aforesaid circumstances, we hereby once again call upon MSEDCL to forth with issue PTC and to procure power when generated at an ad-hoc rate of Rs. 3.85 (Rupees Three and Eighty Five Paise Only) kWh per unit till final determination of tariff, failing which we shall be constrained to advise our Client to avail appropriate remedies available under law.

We look forward to urgently hear from you.

Thanking you, Yours faithfully For Eternity Legal

No. CE/RE/SHP/PTC/

10 1 9 0 2 0

Date: 2 3 JUN 2022

To,

The Superintending Engineer, O&M Circle, MSEDCL. Nashik Circle.

Permission to commission (PTC) for 1.45 MW Mukane Small Hydro project of M/s Shreehari Associates Pvt. Ltd. at Igatpuri, Dist. - Nashik.

(1)PPA Executed with M/s. SAPL dated 06.05.2015. Ref:

(2) MERC daily Order in Case No 57 of 2023.

With ref. to above subject, Hon. MERC vide daily order under ref. no. (2) directed MSEDCL to issue permission to commission (PTC) in respect of 1.45 MW Mukane Small Hydro project of M/s. Shreehari Associates Private Limited (SAPL) at Mukane Dam, Dist.-Nashik.

In view of the above, the Competent Authority of MSEDCL has accorded its approval for permission to commission subject to following terms and conditions:

- a) The permission for commissioning of the said Small Hydro project shall be valid for 30 days from the date of this letter.
- b) MSEDCL will buy power from 1.45 MW Mukane SHP at the tariff offered of Rs. 3.85 p.u. till final disposal of the main matter sub-judice before Hon'ble MERC. The Final Order of the Hon'ble Commission (MERC) shall be binding on M/s. SAPL.
- c) The permission to commission is granted subject to the condition that all the statutory clearances are obtained by the generator and are in place and all the relevant Regulations including DSM or MERC RE FORECASTING and SCHEDULING Regulations as applicable are to be complied with.
- d) The generator shall take start-up/auxiliary connection in its name as per applicable tariff category.
- e) M/s SAPL has to follow grid discipline & prevailing rules & Regulations.

- f) M/s SAPL may carry out arrangement regarding visibility of real time generation data to SLDC through RTU-DC & V-SAT in line with relevant Regulations applicable from time to time.
- g) In case of emergency / to ensure grid security, the instructions issued by the State Load Dispatch Center from time to time shall be binding on the Small Hydro generator and the plant shall back down or shut down the generation if system conditions so warrant. The Small Hydro generator shall not be entitled for any compensation whatsoever in such case.
- h) After commissioning of the project, the certificate of commissioning shall be issued by the Superintending Engineer O&M of concerned circle office who shall be the Nodal Officer for technical arrangements.
- i) It will be the sole responsibility of Nodal Officer to ensure monitoring and adherence of all the stipulated terms & conditions by the Small Hydro generator as mentioned above and will also abide by the conditions mentioned in the undertaking and will be personally held responsible for deviation if any.

This is for your information and further necessary action.

M/s Shreehari Associtaes Pvt Ltd, Ch. Sambhajinagar: Request for permission to commissioning (PTC)

Ref.:- 1) MSEDCL Head office letter No. CE/RE/SHP/PTC/19020.
2) MERC order – IA No. 27 of 2023 in case no 57 of 2023. Date 08/05/2023.

Respected sir,

With reference to above subject and given references, We are having regards for granting permission for (ATES (P) LTE commissioning of 1.45 MW Mukane Small Hydro project, as mentioned in reference no.3 and granted permission is valid for 30 days only from the date of issuance of above letter.

It is also well within in your knowledge that, above project is ready for commissioning since long time from our side.

We are planning to commission of the Mukane Hydro Electric Project (1x1450 KW) during the period of 26th June-2023 to 28th June-2023. Further it is also requires to be noted that, the rotation of the water from above dam is in existing continue, which is going to be stopped from 29th June-2023 and thereafter due to stoppage of rotation of water, hence commissioning of the project is requires to be conducted during the period from 26th June to 28th June-2023.

Considering the above facts, we are requesting that, kindly depute your office representative on site during the above period only, by pre-intimating to us their exact the date of availability of them, on above site, in whose presence necessary commissioning process can be completed by us. If you intimate us in advance, the exact date of their appearance on site, then it will be convenience for us for making necessary arrangement accordingly for commissioning purpose.

Thanking you and we are expecting your necessary cooperation and assistance for commissioning of project during the above period.

Thanking yo

You're tru

IA No. 27 of 2023 in Case No. 57 of 2023

Interlocutory Application of Shreehari Associates Private Limited for seeking urgent reliefs in Case No. 57 of 2023.

Shreehari Associates Private Limited....

Petitioner

Maharashtra State Electricity Distribution Co. Ltd. (MSEDCL)

Government of Maharashtra Water Resources Department (GOMWRD)

Respondents

Maharashtra Energy Development Agency

Appearance:

For the Petitioner:

: Ms. Dipali Sheth (Adv.)

For the Respondent:

: Mr. Abhishek Khare (Adv)

Daily Order

- 1. Heard the Advocate of Petitioner and Respondent.
- 2. An advocate on behalf of SAPL stated that the project under consideration is an irrigation based hydro project. Now, irrigation rotation has been planned for this month i.e. May. The project is ready for commissioning. MSEDCL is not issuing Permission to Commission (PTC) and coercing SAPL to supply free electricity in lieu of issuing PTC. In the interim, till tariff is duly determined by Commission, SAPL has proposed that the power may be procured by MSEDCL at ad-hoc tariff of Rs. 3.85 per unit.
- 3. After taking instructions, Advocate appearing for MSEDCL stated that MSEDCL agrees to procure power at the rate of Rs.3.85 per unit as an interim arrangement till final disposal of the matter.

Page 1 of 2

- 4. Considering submissions made, the Commission allows interim arrangement of procuring power by MSEDCL at ad-hoc tariff of Rs. 3.85 per unit till final disposal of the main matter and accordingly directs MSEDCL to issue PTC. Accordingly, the Commission disposes of IA No.27 of 2023.
- 5. Main matter i.e. Case No.57 of 2023 is filed for determination of project specific tariff, which will be decided after following up due public consultation process.

Respected sir,

Gentle reminder to issue PTC for Mukane 1.45 MW SHP.

This is with reference to

- 1) communication from CE (RE) MSEDCL office vide letter No. CE/RE/SHP/PTC/19020 dtd. 23.06.2023 and
- 2) our (SAPL) request letter to SE Nashik Circle vide letter No.: SAPL/Mukane HEP/260623 dtd. 26.06.2023 (Attached herewith)

Sir, we would like to notify that, the water rotation from Mukane dam is continuing, which is going to be stopped on 29th June-2023, so commissioning of the project is required to be conducted before 29.06.2023.

Considering the above facts, we kindly request you to issue permission on most priority and depute your office representative on site during the commissioning of the project, by pre-intimating to us.

expecting your immediate and necessary cooperation.

Regards,

Kapil Hokarne

Shreehari Associates (P) Ltd.

- 8. Legal Notice dated June 20, 2023 bearing reference No. EL/DS/S-089/563/2023 sent to Maharashtra State Electricity Distribution Company Limited;
- Letter dated June 23, 2023 bearing reference No. CE/RE/SHP/PTC/No. 19020 sent by Chief Engineer (Renewable Energy), Maharashtra State Electricity Distribution Company Limited to Superintending Engineer, O&M Nashik Circle, Maharashtra State Electricity Distribution Company Limited;
- 10. Letter dated June 26, 2023 bearing reference No. SAPL/MUKANE HEP/260623 sent by Shreehari Associates Private Limited to Superintending Engineer, O&M Nashik Circle, Maharashtra State Electricity Distribution Company Limited; and
- 11. Email dated June 27, 2023 sent by Shreehari Associates Private Limited to Superintending Engineer, O&M Nashik Circle, Maharashtra State Electricity Distribution Company Limited.

We are concerned for our Client viz.; Shreehari Associates Private Limited ("SAPL"), a private company registered under the Companies Act, 1956 bearing Corporate Identity Number: U17100MH2001PTC200611 and having their registered address at Saisharan, Gut No. 41, Paithan Road, Golwadi, Aurangabad - 431005, Maharashtra, India and also having office address at Plot No. 36, Gut No. 41, Golwadi, Paithan - Waluj Link Road, Aurangabad - 431005, Maharashtra, India. Under the instructions of our Client, we wish to state as follows:

- 1. Pursuant to the hearing held on May 8, 2023 before the Hon'ble Maharashtra Electricity Regulatory Commission ("MERC"), the Counsel appearing on behalf of Maharashtra State Electricity Distribution Company Limited ("MSEDCL") submitted that MSEDCL agrees to procure power at the rate of Rs. 3.85/- (Rupees Three and Eighty Five Paise Only) per kWh unit as an interim arrangement till the final disposal of the matter. Consequently, Hon'ble MERC vide daily order dated May 8, 2023 recorded the interim arrangement for procuring power by MSEDCL at an ad-hoc tariff of Rs. 3.85/- (Rupees Three and Eighty Five Paise Only) per kWh unit till the final disposal of the main matter and directed MSEDCL to issue permission to commission ("PTC") to SAPL. The relevant portion of the Daily Order dated May 8, 2023 passed by the Hon'ble State Commission in Case No. 57 of 2023 is reproduced below for your ready reference:
 - "3. After taking instructions, Advocate appearing for MSEDCL stated that MSEDCL agrees to procure power at the rate of Rs.3.85 per unit as an interim arrangement till final disposal of the matter.
 - 4. Considering submissions made, the Commission allows interim arrangement of procuring power by MSEDCL at ad-hoc tariff of Rs. 3.85 per unit till final disposal of the main matter and accordingly directs MSEDCL to issue PTC. Accordingly, the Commission disposes of IA No. 27 of 2023."

- 2. Our Client vide its letter dated Mav 10. 2023 bearing reference No. SAPL/BOT/HYDRO/MUKANE/2023-5-01 requested MSEDCL to issue PTC to SAPL for their 1.45 MW Mukane Hydro Power Project located at Mukane village, Taluka - Igatpuri, District – Nashik ("Mukane Hydro Power Project") on the ad-hoc tariff of Rs. 3.85/- (Rupees Three and Eighty Five Paise Only) per kWh unit urgently, as the water rotation at Mukane was to commence from May 10, 2023.
- 3. Our Client vide its various emails dated May 20, 2023 and May 25, 2023 requested you to issue PTC to SAPL as the water rotation at Mukane had already commenced on May 10, 2023 and that due to the non-issuance of PTC precious renewable energy was being wasted which could have been generated by way of the hydro project as it is a source of renewable power in order to reduce reliability upon conventional and non-renewable sources of electricity.
- 4. MSEDCL vide its email dated May 25, 2023 requested SAPL to submit the valid Electrical Inspection charging permission mentioning the list of equipment and its ratings. Therefore, our Client immediately approached Chief Electrical Inspector to certify the same.
- 5. Our Client vide its email dated June 5, 2023 to MSEDCL submitted the inspection report issued by the Electrical Inspector vide its letter dated June 5, 2023 bearing reference No. EIN/TECH/2022-23/758. The inspection report has categorically stated that the inspection of SAPL's Mukane Hydro Electric Project has been done and the general condition of the Mukane Hydro Electric Project is in order as per the relevant provisions of the Central Electricity Authority (Measures relating to Safety and Electric Supply) Regulations, 2010. The relevant portion of the letter dated June 5, 2023 is reproduced below for your ready reference:

"Whereas the inspection of your electrical installation was done by the undersigned on 29.05.2023 and the general condition of the electrical apparatus are found to be in order as per the relevant provisions of the CEA (Measures relating to Safety and Electric Supply) Regulation, 2010 (as amended till date)."

- 6. However, to our Client's utter shock MSEDCL vide its email dated June 7, 2023 again requested our Client to submit the Electrical Inspector's charging permission along with the list of equipment and its ratings.
- 7. Our Client vide its email dated June 9, 2023 with reference to the MSEDCL's email dated June 7, 2023 as well as to the discussions held in the meeting dated June 8, 2023 at Prakashgad, Mumbai in the presence of Mrs. Kavita Gharat, Chief Engineer (Renewable), and Mr. Amit Bute, Executive Engineer (Renewable) once again requested MSEDCL to immediately issue PTC for their Mukane Hydro Power Project and purchase hydro power generated on the ad-hoc tariff of Rs. 3.85/-(Rupees Three and Eighty Five Paise Only) per kWh unit, as day by day the availability of water head is reducing at the Mukane Dam. We regretfully wish to state that despite unambiguous direction

and the Hon'ble MERC our Client is unable to generated any revenue from the Mukane Hydro Power Project. It may also be appreciated that our Client has invested huge funds for developing the Mukane Hydro Power Project and in absence of PTC our Client is unable to generate green energy which is loss of natural resource.

- 8. Our Client vide its email dated June 14, 2023 again sent a remainder to you and called upon MSEDCL to issue PTC for their Mukane Hydro Power Project.
- 9. Our Client vide its email dated June 17, 2023 again requested you to issue PTC on an urgent basis as the final water rotation for the season has started for the Mukane Dam and more than twenty three (23) days have elapsed since the first water rotation was completed. Due to non-grant of PTC, our Client has suffered a loss for which MSEDCL shall be liable for a period from May 11, 2023 to June 2, 2023.
- 10. We on behalf of our Client had sent MSEDCL a Legal Notice dated June 20, 2023 bearing reference No. EL/DS/S-089/563/2023 for issuing PTC and to procure power when generated at an ad-hoc rate of Rs. 3.85 (Rupees Three and Eighty Five Paise Only) per kWh unit till final determination of tariff.
- MSEDCL vide its letter dated June 23, 2023 bearing reference No. CE/RE/SHP/PTC/No. 19020 sent by Chief Engineer (Renewable Energy), MSEDCL to Superintending Engineer, O&M Nashik Circle, MSEDCL wherein a copy was also marked to our Client stating that in pursuance of the daily order dated May 8, 2023 passed by the Hon'ble MERC in Case No. 57 of 2023 the competent authority of MSEDCL had accorded its approval for issuing PTC to our Client subject to certain terms and conditions.
- 12. Our Client vide its letter dated June 26, 2023 bearing reference No. SAPL/MUKANE HEP/260623 requested Superintending Engineer, O&M Nashik Circle, MSEDCL to grant permission for commissioning of the Mukane Hydro Power Project as the PTC was only valid for thirty (30) days from the date of MSEDCL's letter dated June 23, 2023. Moreover, you are well aware that the Mukane Hydro Power Project is ready for commissioning and that our Client is planning to commission the Mukane Hydro Power Project from June 26, 2023 to June 28, 2023 as the water rotation of the Mukane Dam will be stopped from June 29, 2023. Therefore, our Client requested you to depute your office representative on the project site during the said period as it is a prerequisite condition for completing the commissioning process.
- 13. Our Client vide its email dated June 27, 2023 again requested Superintending Engineer, O&M Nashik Circle, MSEDCL to issue permission on urgent basis for commissioning the project before June 29, 2023 as the water rotation of the Mukane Dam will be stopped on June 29, 2023 and also requested MSEDCL to depute its office representative on the project site by pre-intimating our Client.

- 14. Despite complying with the requisition and unambiguous order of Hon'ble MERC dated May 8, 2023, MSEDCL has till date failed to issue PTC to SAPL. Such non-compliance is a breach of the undertaking given before the Hon'ble MERC and such non-issuance of PTC is contempt of the aforesaid Order.
- In the aforesaid circumstances, we hereby once again call upon Superintending Engineer, O&M 15. Nashik Circle, MSEDCL to forth with issue PTC and to procure power when generated at an ad-hoc rate of Rs. 3.85 (Rupees Three and Eighty Five Paise Only) per kWh unit till final determination of tariff, failing which we shall be constrained to advise our Client to avail appropriate remedies available under law.

We look forward to urgently hear from you.

Thanking you, Yours faithfully

For Eternity Legal

To,

The Executive Engineer Nasik Rural Division/ Nashik Testing Division MSEDCL, Nasik

Sub: - Synchronization and commissioning of Small hydro project (1.45MW) in r/o M/s Shreehari Associates Pvt. Ltd. at Mukane Village, Tal-Igatpuri, Dist. Nasik.

Ref: - 1) No. CE/RE/SHP/PTC/No.19020 Date:23.06.2023

- 2) PPA Executed with M/s. SAPL dated 06.05.2015.
- 3) MERC daily Order in Case No 57 of 2023.
- 4) Letter from EI EIN/Tech/2022-23/758 Dt.05.06.2023 Charging permission for (1.45 MW HEP allied equipment) from Elect.Insp. No.515002906201901235 Dt.01.10.2019
- 5) CE/Comm/Grid conn/No.2639 Dt.24.01.2014.

With reference to above cited subject, as per letter mentioned in the ref.(5) Chief engineer (Commercial) had given permission for grid connectivity at 33kv Padali MSEDCL S/s for evacuation of power to M/s Shreehari Associates Pvt. Ltd. for their proposed SHP(1.45MW), Mukane Village, Tal-Igatpuri, Dist. Nasik accordingly Energy Purchase Agreement (EPA) as per ref no (2).

This office is in receipt of Permission to commission (PTC) for 1.45 MW Mukane Small Hydro project of M/s Shreehari Associates Pvt. Ltd. at Igatpuri, Dist. - Nashik vide reference no.(1). Hon. MERC vide daily order under ref. no. (3) directed MSEDCL to issue permission to commission (PTC) in respect of 1.45 MW Mukane Small Hydro project of M/s. Shreehari Associates Private Limited (SAPL) at Mukane Dam, Dist.- Nashik.

In connection with this, the joint inspection is carried out by the Superintending Engineer, Nashik circle with Executive Engineer Testing and Executive Engineer Nashik Rural division on dt.04.07.2023. It is found that existing main/Check / Additional check meter, all meters are of Elster(A1800 make) Non-DLMS protocol, Hence needs to be replaced for further billing process.

Hence it is kindly requested to arrange Synchronization and commissioning of Small hydro project (1.45MW) in r/o M/s Shreehari Associates Pvt. Ltd. at Mukane Village, Tal-Igatpuri, Dist. Nasik for power evacuation on 33Kv Bay at Padali Substation.

This commissioning is subject to completion of Executive Engineer Nashik Testing Division compliance & other conditions as below:

- 1) You are requested to observe the remaining formalities and commission and synchronize power Evacuation after testing the installation by testing division and submit MOM report immediately to this office.
- 2) The existing main/Check / Additional check meter, all meters are of Elster (A1800) make Non-DLMS protocol should be replaced within a month for further billing process.
- 3) For any un-stabilization and non evacuation of power due to any reason whatsoever, referred with sale of power, MSEDCL shall not be held responsible

Submitted for your information and needful please.
